Roads infrastructure	92
Bushbuckridge Local Municipality's roads are characterized by poor gravel roads with unclearly defined road network links due to conditions of the roads. The entire roads infrastructure has limited storm water drainages and poor maintenance strategy and results, some tarred roads are been destroyed by rains. There is also limited access to bridges to provide sufficient linkage on communities for economic engagements. The R40 road is the only provincial road which is well maintained by the Department of Roads and Transport; other provincial roads are not well maintained. The municipality has budgeted money to improve the measure economic road and roads leading to social facilities (clinics and schools). The municipality has budgeted R119 700 000 for the 2014/15 financial year.	92

INTRODUCTION

FOREWORD BY THE EXECUTIVE MAYOR

Bushbuckridge Local Municipality was established in line with section 152 of the constitution of the Republic of South Africa with the main purpose of bringing basic services to the local communities. These basic services include water, sanitation, access routes, electricity and housing.

Local government: Municipal Systems Act as amended in 2010 section 4 (2) stipulates that a local municipality has the duty to:

(a) Exercise the municipality's executive and legislative authority and use the resources of the municipality in the best interest of the local communities.

In the process of exercising this authority, section 23 (1) provides that a municipality must undertake to developmentally-oriented planning so

as to ensure that it:

- (a) Strives to achieve the objects of local government as set out in section 152 of the constitution
- (b) Gives effect to its developmental duties as per MSA guided by section 153 of the constitution and
- (c) Together with other organs of state contribute to the progressive realization of the fundamental rights contained in sections 24, 25, 26, 27 and 29 of the constitution.

The process as provided for above should be done in accordance with a predetermined programme specifying time frames for the different steps, which include inter alia,

- Consulting the local community on its developmental needs and priorities,
- Local community participating in the drafting of the integrated development plan and
- Involving organs of state, including traditional authorities, and other role players identified.

Any credible IDP should therefore be reflective of the accurate developmental needs of the local communities. This very point provides a measuring instrument against which the vision, mission, core value and service delivery priorities as contained in the IDP of the municipality will be evaluated. For a number of years now this municipality has battled to overcome the pressing challenges of shortage of water in our communities. While there have been some achievements in the past five years, we acknowledge challenges that still confront us especially around portable water, access routes, housing and sanitation. This IDP that comes before you today should assist this municipality towards addressing these challenges. I therefore, endorse this IDP and commit the entire council, to its implementation and achievement.

Cllr Renias E. Khumalo

Honourable Executive Mayor

OVERVIEW BY MUNICIPAL MANAGER

Bushbuckridge Municipality is rural and characterized by poverty and high unemployment rates. Despite its constitutional mandate to provide sustainable services to its immediate communities, water, access routes, housing and sanitation remain a major challenge.

Consequently, most of the planned activities in this Integrated Development Plan are designed towards meeting these challenges. Furthermore, it is evident that over the past years the municipality has made progress in addressing some of these challenges above. The bulk water line from Inyaka dam has now extended towards Bushbuckridge north making it possible to reticulate most communities in both medium and long term. Due to limited financial resources it is not immediately possible to reticulate all communities at once. This IDP should therefore be used to facilitate planned service delivery processes that must in due cause assist the municipality to increase the number of people who can access these services in a sustainable manner.

Unemployment remains a challenge within the municipality despite a number of Local Economic Development initiatives aimed at job creation. We therefore need to reposition all directorates of the municipal administration towards increasing the size of our economic activities to allow for more job creation. We also need to drastically reduce service delivery backlogs especially around portable water because most economic initiatives can only succeed if there is sustainable supply of water.

Therefore, this IDP represents delivery priorities that this municipality will deliver to the communities of Bushbuckridge in the next financial year, starting 01 July 2013. We call upon all community members to rally in the fore front of the administration towards achieving the IDP objectives.

**MUNICIPAL MANAGER
D L SHABANGU**

CHAPTER 1: EXECUTIVE SUMMARY

1.1. EXECUTIVE SUMMARY

Bushbuckridge Local Municipality is a category B municipality that forms part of the five Local Municipalities of Ehlanzeni District Municipality in the Mpumalanga Province. The Municipality covers the largest population size of 541, 248 persons as per 2011 Census statistics, which is 34% of the total population of the Ehlanzeni District Municipality and 14% of the Provincial population. It is renowned for its agricultural and tourism attractions. It was declared a presidential nodal point by the president of the republic in 2001, it is located in the north-eastern part of the Mpumalanga Province and is bounded by Kruger National Park in the east, Mbombela Local Municipality in the South and Thaba Chweu local Municipality and it covers approximately over 1 000, 000 ha, after the recent Municipal Demarcation Board has expanded the locality by including part of the Kruger National Park. The Municipality currently consists of 37 wards with 37 ward Councillors and 37 PR Councillors and covers part of the Kruger National Park.

This document therefore, is the Integrated Development Plan (IDP) of the Bushbuckridge Local Municipality for the 2013 - 2016 financial years. It provides basic key service delivery challenges in areas that have been prioritised for 2013 - 2016 financial years. It is also based on the multi-year approach principle to enable Municipal Council to have a multi discipline budgetary process.

The Municipality has a number of challenges which form part of the priorities in the medium-term and certainly the Long Term Development Strategy. These are high poverty levels, Crime, Unemployment, Back log of service delivery, Skills shortage, High illiteracy, rural nature, HIV/AIDS epidemic and more certainly the lack of adequate access to basic services (health and education).

Poverty and unemployment are core development challenges in Bushbuckridge Local Municipality, the majority of people in the municipal area of jurisdiction are unemployed and this poses a big challenge for the municipal economic development. The Municipality has adopted a holistic approach in

addressing the inter-related socio-economic factors that can contribute to the quality of life for all the people living in the Bushbuckridge Local Municipality.

1.2. LEGISLATIONS FRAMEWORK

Constitution of South Africa

The Constitution of the Republic of South Africa (Act 108 of 1996) is the supreme law of the country and fundamentally aims to protect human rights and promote democratic governance. The Constitution therefore provides for a new approach to government on national, provincial and local government levels. The new Constitutional model redefines the relationships between the three spheres of government, by replacing the system of a vertical hierarchy of ties, with three overlapping planning process and sets of plans each relating to a different sphere of government. The focus of cooperative governance is however to ensure that scarce resources are used for maximum impact.

Municipal Systems Act

In terms of the Local Government: Municipal Systems Act (2000) requires that Municipalities draw up an integrated Development Plan (IDP) - a Strategic Plan, Which all Developments in a municipal area are based upon. The IDP is the principal planning instrument that guides and informs the municipal budget. It is a plan that not only concentrates on other provisions of municipal services, but also seeks to alleviate poverty, boost Local Economic Development, Eradicate unemployment and promote the process of reconstruction and development.

Municipal Finance Management Act

In addition to compiling an I.D.P, it is also a legislative requirement, in terms of the municipal Systems Act and the municipal Finance management Act (2003) that the municipality's I.D.P be reviewed on an annual basis. The aim of the review is to ensure that the municipal planning takes into account changing circumstances.

National Strategies

What follows is a brief description of government service delivery targets following by the general outcome goals, key objectives, guiding principles and key development priorities of the Accelerated and Shared Growth Initiative of South Africa (ASGISA), The National Spatial Development Perspective (NSDP).

Government service delivery targets for the period up to 2014 are crucial and have to be reflected in our service delivery priorities. Bushbuckridge Municipality's IDP is aligned to the Mandate of the ANC-led Government priorities for the period of 2009-2014, which are as follows:

- ▶ The creation of the decent work and sustainable livelihoods
- ▶ Education
- ▶ Health
- ▶ Rural development, food security and land reform
- ▶ The fight against crime and corruption

In localizing priorities of the 2009 Manifesto and in meeting the key challenges facing the communities, the ANC will:

- Promote Local Economic Development;
- Intensify Comprehensive Rural Development;
- Accelerate the provision of Basic Service Delivery and Infrastructure Development to Rural Communities;
- Build a more united, non racial, integrated and safer communities;
- Promote Community Participation
- Ensure an effective, accountable and clean Local Government System with the support of Provincial and National Government Departments
- Continue working together with Traditional Leaders
- Strengthen the fight against crime and corruption
- Promote the mainstreaming on Transversal Issues
- Promote Institutional Skills Development and Community Based Civic Education.

National Development Plan (VISION 2030)

It was soon after the promulgation of the Outcomes Based Planning Approach, the State President restructured his cabinet to conform to the set standards. A Planning Commission which reports directly to the Presidency was one of the structures that were established. Its terms of reference were to give planning support and guidelines to all government institutions.

The Commission embarked on a diagnostic process in an effort to establish the planning data and realities on the ground. About eight issues all revolving around poverty and inequality were raised during this stage and they are: Poor education, High Disease rate, Exclusive Planning, corruption, Aging infrastructure, Poor job opportunities, Resource intensive economy, Public Services uneven and divided communities.

In a means to address these challenges, the Commission drew up a plan called the 2030 Plan for South Africa which is looking at a total attainment of a prosperous and equity state by the year 2030. This plan

proposes a number of issues that need to be considered when doing our planning if we are indeed are to realize the 2030 vision. These areas were all given an honest consideration during the developmental stages of our IDP to ensure proper alignment. A one day session was even conducted with the Commission in a quest to customize the issues with the regional realities. These planning considerations are as follows:

- Creation of Jobs
- Expanding Infrastructure
- Transition to a low-carbon economy
- Transformation of urban and rural spaces
- Education and Training
- Provision of quality Health Care
- Building a capable State
- Fighting corruption
- Transformation and Unity

ASGISA Guidelines

Bushbuckridge Local Municipality has been and will continue working with other spheres of Government to provide and encourage service delivery in a coordinated manner to provide for specific interventions that will ensure that ASGISA guidelines succeeds in its purpose, which includes the reduction of the unemployment and halve poverty levels in 2014 within our communities. This plan will have much focus on the following ASGIGA guidelines as part of the priorities of the Municipality:

- Building comprehensive and sustainable infrastructure to grow the capacity of our economy.
- Boosting sector of the economy with special potential for faster growth developing the skills we need.
- Addressing inequalities that marginalize the poor in the second economy.
- Continuing with the policies that have created a good climate for growth.
- Making governance more effective and efficient.

The National Spatial Development Perspective (NSDP) Guidelines

The ultimate vision of the NSDP in relation to the Municipal spatial development plan will be to:-

- Focus Economic Growth and Employment creation in areas where it will be most effective and sustainable through proper Land Use Management systems. (LUMS)
- Support restructuring and or rezoning of areas that have greater potential to encourage industrial advantage for sustainable living and will assist in facilitating economic growth within the Municipality.

- Foster development for the basis of Local Economic Development potential.
- Ensure that all municipalities are able to provide for basic needs.

National Spatial Development Perspective (NSDP) is a tool for policy co-ordination with regard to the spatial implications of infrastructure programs in National, Provincial and local government. The aim of the NSDP in South Africa is to reconfigure apartheid spatial relations and to implement spatial priorities that meet the constitutional imperative providing basic services to all alleviating poverty and inequality. It also examines the spatial dimension of social exclusion and inequality recognizing the burden that unequal and inefficient spatial arrangements place on communities.

1.3. PROVINCIAL STRATEGIES

Provincial Growth and Development Strategy (PGDS)

Provincial Growth and Development Strategy (PGDS) is a strategic and integrated provincial development plan that provides direction and scope for province wide development programs and projects within the context of a long term perspective and taking into account available resource and constraints. It also guides the activities of all agencies and role players by linking to and deepening the application of the NSDP. PGDS has identified six priority areas of intervention, of which BLM SDF need to align to in terms of this planning and project identification. Hereunder, follows the identified priority areas.

- Economic Development
- Development infrastructure
- Social Development
- Sustainable Environmental Development
- Good Governance
- Human Resource Development

1.4. POWERS AND FUNCTIONS OF THE MUNICIPALITY

The Municipal systems act 32 of 2000 (chapter 3 sub-section 3) requires that the Municipality must exercise its legislative or executive authority by performing the following powers and functions assigned to it in terms of Constitution.

- Developing and adopting policies, plans, strategies and programmes, including setting targets for delivery.
- Promoting and undertaking development.
- Establishing and maintaining an administration.
- Administering and regulating its internal affairs and the local government affairs of the local community.
- Implementing applicable national and provincial legislation and its by-laws.

- Providing Municipal services to the local community, or appointing appropriate service providers in accordance with the criteria and process set out in section 78.
- Monitoring and where those services are provided by service providers other than the municipality.
- Preparing approving and implementing its budgets.
- Imposing and recovering rates, taxes, levies, duties, service fees and charges on fees, including setting and implementing tariff, rates and tax and debt collection policies.
- Monitoring the impact and effectiveness of any services, policies, programs or plans.
- Establish and implementing performance management systems.
- Promoting a safe and healthy environment.
- Passing by-laws and taking decisions on any of the above-mentioned matters.
- Doing anything else within its legislative and executive competence.

CHAPTER 2: IDP PLANNING PROCESS

2. PREPARATION PROCESS

District Framework:

The process plan for the Bushbuckridge Local Municipality is guided by the Ehlanzeni District IDP Framework as adopted by Ehlanzeni District Municipality during a council meeting held in August 2013; the IDP process plan for Bushbuckridge Local Municipality for 2014/2015 financial year was also approved and adopted by Municipal Council on the 22nd September 2013 with Council resolution: **BLM/18/22/08/13/2013/14**

2.1. Bushbuckridge Local Municipality's Process Plan

The following process plan was followed during the development` of the Municipal IDP for 2014 - 2016 financial years:

2.1.1. Preparation Phase

Bushbuckridge Local Municipality developed a process plan for the development of the IDP for **2014 - 2016**. The process plan was circulated internally to directorates for comments and inputs before it was adopted by Council. The Municipality advertised the public meetings as per the MSA no. 32 of 2000. Ward councillors were requested to inform all the stake holders in their wards. Traditional leaders, community members, NGOs, Parastatals, and Sector Departments were invited to attend the Public meetings.

2.1.2. Analysis Phase

The municipality conducted extensive Community Based Planning and public participation meetings that were held on the following:

Table 1: Dates for Capacitation of ward Committees and Councilors

Venue	Date(s)	Wards
Mkhuhlu	21/10/2013	1,2,3,23, & 34
Marite	22/10/2013	4,5, & 6
Shatale	19/09/2013	7,11, & 13
Dwarsloop	20/09/2013	8,9,10 & 37
Casteel	14/10/2013	32,14, & 16
Acornhoek	15/10/2013	15,17,18,19,20 & 21
Thulamahashe	16/10/2013	22,29,28 & 31
Hlulukani	17/10/2013	30,33,34, & 36

Venue	Date(s)	Wards
Lillydale	18/10/2013	25,26,27, & 35

The process was inclusive of major stakeholders in the municipal area. Ehlanzeni District Municipality and COGTA officials attended the certain sessions or public participations. During this phase, the aim was to get an understanding of the existing circumstances within the municipality. Ward Councillors, ward committees and CDWs were requested to review their Community Based Planning documents.

Community Based Planning and Priority Issues

The following table outlines and summaries the challenges and service delivery priorities per ward:

Table2: CBP

PRIORITY ISSUE(S)	NEEDS	WARD(S)
1. Water	<ul style="list-style-type: none"> • Insufficient water • Insufficient Bulk water supply • Water Reticulation • Insufficient Reservoirs 	All Wards 1-37
2. Sanitation	<ul style="list-style-type: none"> • Insufficient sanitation • Lack of bulk sewerage infrastructure • VIP Toilets 	All Wards 1-37
3. Roads / Streets and bridges	<ul style="list-style-type: none"> • Opening of streets • Rehabilitation streets • Re-gravelling and grading. • Tarring of roads. 	All Wards 1-37
4. Human Settlement	<ul style="list-style-type: none"> • Provision of land for housing development • Provision of houses • Rental stock Houses 	All wards 1-37
5. Education	<ul style="list-style-type: none"> • Provision of Schools. • Renovating schools. • Replacement of mud Schools. 	01,2,6,11,12,13,13,14,15,19,24,25,27,30,31,32,35,36,37.
6. Health	<ul style="list-style-type: none"> • Provision of Clinics. • Provision of Health Centers. • Provision of Mobile Clinics 	1,2,4,6,11,12,13,14,15,18,19,24,25,27,29,30,31,35,36,37.

PRIORITY ISSUE(S)	NEEDS	WARD(S)
7. Energy	<ul style="list-style-type: none"> • Insufficient electrification • Extensions • Power Failure • High mast lights 	1,2,4,6,11,12,13,15,18,19,20,24,25,27,30,32,35,36,37.
8. Economic Growth and Development	<ul style="list-style-type: none"> • Job creation • Construction of business centers • Upgrading of land tenure • Grazing land • Market Stalls • Farming • Cultural villages • Market opportunities 	All Wards 1-37
9. Transport	<ul style="list-style-type: none"> • Lack of Tasting Stations • Lack of information centers • Lack of Buses • Establishment and upgrading of bus and taxi ranks 	1,2,6,7,8,9,11,12,13,14,20,23,25,27,31.
10. Disabled	<ul style="list-style-type: none"> • User friendly schools for disabled • Skills development 	North, midlands, and South.

12. Safety and Security	<ul style="list-style-type: none"> • Provision of Satellite Police stations. • Constriction of police stations. 	2,4,12,18,25,27,30.
13. Spatial Planning and Land Use Management	<ul style="list-style-type: none"> • Formalization of Land Tenure Upgrading. • Servicing of sites. • Fast racking Land Clams. 	1-37
14. Social Development	<ul style="list-style-type: none"> • Provision of Pay points. 	1-37

PRIORITY ISSUE(S)	NEEDS	WARD(S)
15. Community Services	<ul style="list-style-type: none"> • Provision of Sports Facilities. • Provision of recreational Halls. • Provision of Library. • Privation Thusong Centers. 	1,4,6,11,12,19,20,22,25,27,30,31;32, 35.

2.1.3. Strategy Phase

During the management strategic session held on the 04th and 05th December 2013 and Council sitting respectively, the municipality has decided on its future development direction. Bushbuckridge Local Municipality re-affirmed its vision, mission statement and strategies to fulfil objectives of service delivery through the Integrated Development Planning. The Technical Department come up with Strategies on how to address all the needs of the Communities, by prioritising them and came up with projects. Officials from the provincial department of Ehlanzeni district Municipality were part of the strategic session where they assisted in developing the strategic plans to tackle service delivery through the IDP document. The Municipal SWOT analysis was reviewed to project the status quo of the municipality.

2.1.4. Project Phase

The IDP steering committee chaired by the Municipal Manager, inclusive of all directors and managers, met on the 06 March 2014 to consider project proposals that have been developed to undertake and integrate project planning process to ensure an effective and integrated link between project planning and delivery. The Directorates: Municipal Works and Water Services has been very critical in providing support to ensure proper, implementation and management for effective service delivery. The Municipal Manager has requested all the Directors to conduct site visits to check the status quo of the projects. This process assisted in coming up with multi-year projects and the new ones which must form part of the I.D.P. All the Technicians were requested cost the projects correctly to avoid the shortage of funds during the implementation. Most of the capital projects were prioritised and budgeted under the MIG grant.

2.1.5. Integration Phase

The BLM has integrated its capital projects as informed by the vision, objectives and strategies developed and resources available for the effective implementation of the project in the IDP. That has been seen as putting more emphasis on the implementation of the management strategic meeting resolutions. CGTA was requested to co-ordinate the entire sector Departments to assist on the development of sectoral plans and also to submit their projects to be included in the I.D.P. the projects

from various institutions were captured in the I.D.P. the office of the Premier in collaboration with the department of COGTA held a planners forum at Nkangala District offices where all sector departments presented their 2014/15 prioritised projects and programmes. One of the raised challenges from sector departments was space to implement projects in some municipalities. The municipal Rep forum was held on the 10th April 2014 in Marite community hall where the draft IDP was presented to municipal councillors, officials, sector departments' officials and officials from the district municipality.

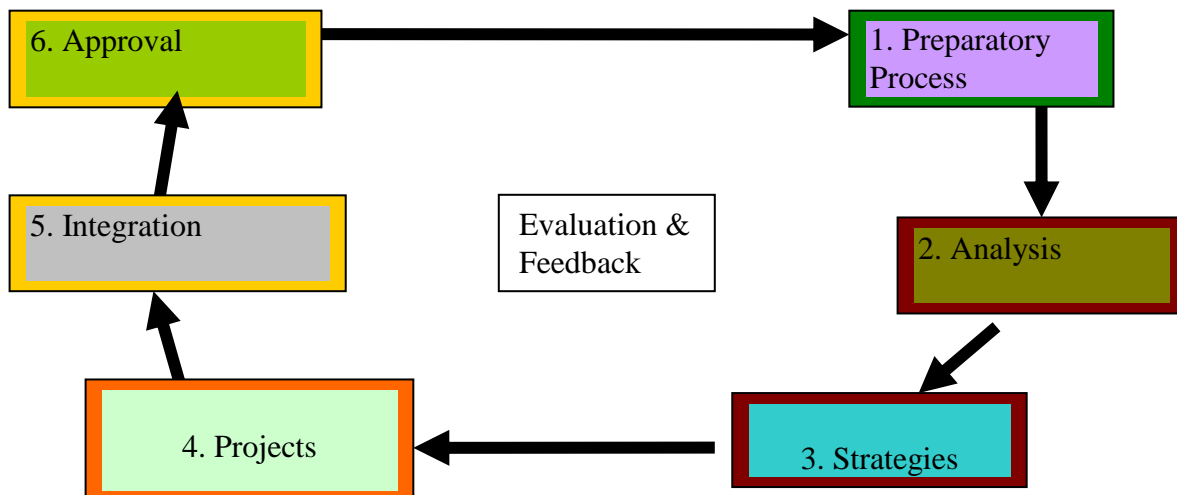

2.1.6. Approval Phase

The 2014-2016 (Draft) IDP was tabled on the portfolio committee on the 25th March 2014, Mayoral committee on the 26th March 2014 and Council for adoption during Council sitting on the 28 March 2014 (**Council resolution BLM/74/28/03/14/2013/14**). After the adoption of the draft document, the municipality has started with the advertising process of the public participation dates and also the draft document. The document has been placed on the municipal website and also in all 11 regional offices of the municipality. The final IDP document was approved by the municipal council on the 30th May 2014 with **council resolution number: BLM/91/30/05/14/2013/14**. The document will be posted on the municipal website for all stakeholders to access it.

2.1.7. Evaluation and Feedback

This process is important as it assist with the strengthening of sustainable projects implemented through the IDP. It is proper to evaluate lessons and challenges to improve on the practice.

The below diagram clearly indicates the process plan from the planning stage to the approval and how the evaluation and the feedback on the IDP will be done.

Principles informing the compilation of the IDP requirements of chapter 5 of the Systems Act which requires:

- (a) The IDP be compiled, adopted and implemented
- (b) The municipality monitors and reviews the implementation of the IDP
- (c) The IDP reviewed and adopted annually to the extent that changing circumstances so demand
- (d) The IDP must be aligned with plans of other spheres of Government; and
- (e) The IDP must reflect priority development needs of communities
- (f) The IDP must align with the Municipal budget and SDBIPs.

2.2. IDP Consultative structures

Municipal Council

Council is the authority on all aspects of the IDP process. After approval by Council, the IDP is submitted to the MEC of Local Government for comments. A copy will also be submitted to the Ehlanzeni District Municipality for information and alignment.

IDP Representative Forum

The forum consists of different stakeholders, interest groups and Councilors. The chairperson of the forum is the Mayor. It considers the development priorities, objectives, strategies, projects and the entire plan. Issues are debated and agreed upon for final approval by the Council of Bushbuckridge Local Municipality. The following are categories of members of the IDP Representative Forum:

- Mayor (Chairperson)
- Speaker
- All Ward Councilors
- PR Councilors
- Municipal Manager
- IDP Steering Committee
- Community Stakeholders
- NGO's and Parastatals
- Traditional Leaders

IDP Steering Committee

The IDP Steering Committee consists of internal Directors, Managers and Head of sector Departments as well as representatives of the District Municipality. The chairperson of this committee is the Municipal Manager. He often delegates to the IDP Manager. The steering committee met on the 06th March 2013 to formulate and align the IDP with the budget and its process for further consideration to the IDP representative forum. The steering committee serves as an advisory committee to the IDP representative forum.

IDP Technical Committee

The Technical Committee consists of all the Directors, Regional Managers, Technicians, Town Planners, and all the Unit Managers. The Municipal Manager is the Chairperson of the Committee, he delegate the IDP Manager to chair the meetings if he is committed. The committee checks the projects, budget, and all the information if it properly captured.

The Committee met on the 19th March 2014 to ensure that all projects in the IDP are correctly costed to avoid shortfalls during the implementation of the IDP. The Committee was chaired by the IDP Manager delegated by the Municipal Manager and was attended by the Directorate: Municipal Works and Water Services, Technicians, Town Planners and officials from the IDP Unit.

Traditional Mayors Forum (Incorporation of Traditional authorities)

Bushbuckridge Local Municipality is having ten Traditional Authorities; through the Office of the Executive Mayor working relations have been developed with the Traditional Authorities in the form of Bohlabela House of Traditional Leaders housed within the offices of the Municipality. The Traditional mayors' forum was established through these relations. This structure meets to discuss issues of land matters, Local Economic Development, social issues, and Infrastructure Backlog.

During the Council sitting on the 15 July 2010, Council has resolved with Council Resolution no. (**BLM /01/15/07/2010/11**), to formally accord the Traditional Leaders to participate in all council sittings as major stakeholders with sitting allowances paid to Traditional Leaders. This will however, strengthen the structures in the municipality and involvement of traditional leadership as partners on matters of development, especially with rural communities that live on tribal land. The municipality is conducting workshops to capacitate Traditional Authorities to tackle the issue of land invasion, land tenure upgrading and servicing of sites.

CHAPTER 3: SITUATIONAL ANALYSIS

3. GENERAL BACKGROUND

3.1. Location and Characteristics

Bushbuckridge Local Municipality is a category B municipality that forms part of the five Local Municipalities of the Ehlanzeni District Municipality family in the Mpumalanga Province. It is renowned for its agricultural and tourism attractions and it was declared a nodal point by the president of the republic in 2001, it is located in the north-eastern part of the Mpumalanga Province and is bounded by Kruger National Park in the east, Mbombela Local Municipality in the South and Thaba Chweu local municipality in the South West. It is part of the Kruger to Canyon Biosphere.

The Municipal area provides a link to economically viable centres in the Lowveld, particularly Hazyview, Hoedspruit, Pilgrim Rest and Graskop. The Municipal Area can therefore be called the gateway to the major tourism attraction points in Mpumalanga and the south eastern part of the Limpopo Province. It is characterised by high unemployment rate, poverty, unregulated influx in particular that of the Somali, Ethiopian and other foreign nationals. The Municipality has in the past been able to address the issue of social cohesion in ensuring that the setup of placing people along tribal belonging not exist. The municipality is currently characterised and dominated by Mapulana tribe, VaTsonga and to an extent, Swati speaking people as indigenous inhabitants.

The Municipality has a number of challenges which form part of the priorities in the interim and certainly the Long Term Development Strategy. These are high poverty levels, Crime, Unemployment, back-log of service delivery, Skills shortage, High illiteracy, rural nature, HIV/AIDS epidemics and more certainly the lack of adequate access to basic services.

BUSHBUCKRIDGE LOCAL MUNICIPALITY- FINAL IDP DOCUMENT 2014/15

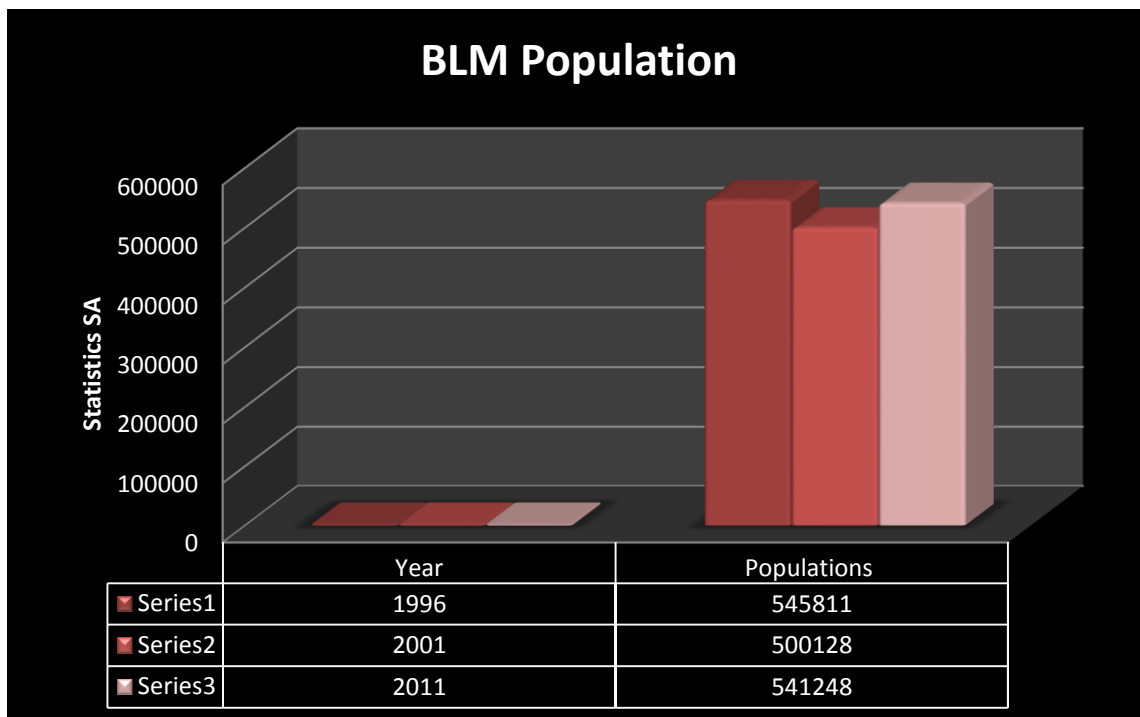

3.2. Demographics

The main purpose of this section is to provide a good understanding of the key social, economical, Physical and environmental features of the municipal area and their impact on spatial and sustainable development.

Population size, age and gender

Figure 1: Population according to census 1996, 2001 and 2011

Sources: STATS SA census 1996, 2001, 2011

The population of Bushbuckridge Local municipality was **545 811** according to the Statistics South Africa 1996 Census, then the 2001 census shows that there was decrease to **500 128** in population. There was an increase in population in the 2011 census as the number rose to **541 248**. Contributing factors might be the fertility & mortality rates, migration and influx to increase residential and business development in the municipality as a result of neighboring countries such as Mozambique, Zimbabwe and Swaziland. A further research on life expectancy, mortality rate and other factors need to be conducted.

Figure 2: Age groups

Source: STATS SA census 2011

The highest population in the Bushbuckridge Local Municipality is the youth residents' aged **15 to 34** and below contributing to **205,811** residents, children from age group of **0 to 14** equals **200,352**, the adults from **35 to 65** are **108,172** and the elderly from **66 to 120** are **26,912**. Females residents contributes **295,224 (52.1%)** while male constitutes **246,023 (47.9%)** of the entire population. The above requires the municipality to co-ordinate various programs to support females and youth in skills development, job creation and provision of basic services

Table 2: Population per ward

Annual growth rate

Table 3: Annual growth rate

Annual Population Growth rate (%)	1996-2001	-0.87
	2001-2011	0.79

Source: STATS SA census 1996, 2001 and 2011

The population of Bushbuckridge local municipality from the census count of 2001 was **497,958** persons; it increased to **509,970** persons based on the estimates from the 2007 Community Survey and is at **541, 248** in the 2011 census count.

Figure 3: Annual growth rate

Source: STATS SA Census 2011

In Bushbuckridge Local Municipality over a period of five (5) years, the growth rate was -0.87 annually between 1996 and 2001. While between 2001 and 2011 the growth rate was 0.79 annually over a period of ten (10) years.

Population Groups

Figure 4: Population groups

Ethnic group	Persons
Black African	538790
Coloured	561
Indian or Asian	544
White	1053
Other	300

Source: STATS SA census 2011

Figure 5: Population groups

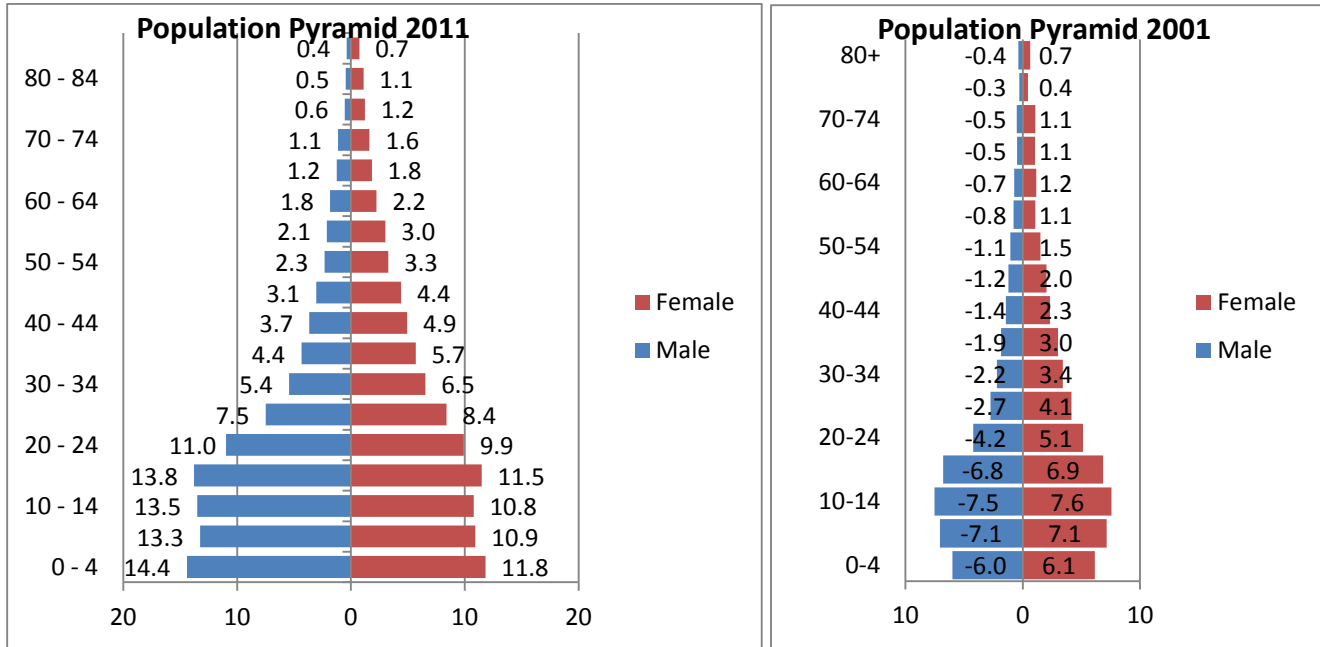

Source: STATS SA census 2011

The population of Bushbuckridge municipality is largely black Africans with 99.55% followed by whites on 0.19%. Coloured and Indian/Asian groups are at 0.10% and the other are on 0.06%.

Population composition

a. Population pyramid

Figure 6: Population Pyramid 2011 and 2001

Source: STATS SA Census 2011 and 2001

The population of Bushbuckridge municipality shows a typical age structure of a very young population distribution. There is strong evidence of declining fertility, which is observable from a steady decline in the population 10-14, 5-9 and 0-4. Also evident is that the population of the municipality is concentrated in younger age groups, with the groups 5-19 being the largest. The distribution is similar for both males and females, except observably larger female population at all age groups.

b. Sex ratio

Table 4: Sex ratio

Census year	%
1996	83
2001	81.94
2011	83.33

Source: STATS SA census 1996, 2001 and 2011

In sex ratio any number less than hundred (100) means that there are more females than males. In the municipality the population’s sex ratio on the 1996 census it was on 83%, the over a five (5) year period to 2001 census it was on 81.94% which is a slight decrease. While between 2001 and 2011 the sex ratio is 83.33 annually over a ten (10) year period.

c. percentage of disability

Table 5: Percentage of disability

Census	%
1996	5.17
2001	4.48
2011	2.87

Source: STATS SA census 1996, 2001 and 2011

In the municipality the number of people of disability has decreased since the first democratic census in 1996 as it on 5.17% compare to 2001 census it was on 4.48% and 2011 as it was 2.87%. the municipality has built a center of disability in Marite with others planned to be implemented in the next coming financial years.

3.3. Socio-economic development

HDI (Human Development Index)

Table 6: Human development Index

Municipality	2001	2007	2011	Ranking: best (1) - worst (18)
Bushbuckridge	0.43	0.48	0.57	15

Source: Mpumalanga department of Finance 2013-socio economic profile

In the socio-economic study conducted in 2013 by the Mpumalanga department of finance the Bushbuckridge Local municipality it was ranked at number 15 in the province with 0.57.

Gini-Coefficient

Table 7: Gini-Coefficient

INDICATORS	Trend		Latest figure 2011	Better (+) or worse (-) than Ehlanzeni	Better (+) or worse (-) than province
	2001	2007			
Gini-coefficient (0 best to 1 worst)	0.65	0.62	0.58	(+) (0.60)	(+) (0.62)
Poverty rate	61.7%	51.3%	42.2%	(+) (45.3%)	(-) (41.6%)

Number of people in poverty	306 230	238 208	193 764		
Poverty gap (R million)	R565	R847	R1 129		
Multiple Deprivation Index (100 worst to 1 best)		51.7			

Source: Mpumalanga Department of finance 2010- socio economic profile

This indicator measures inequality, estimates ranges from 0 to 1 where 1 is an indication of total inequality and 0 is total equality. Gini-coefficient was at 0.58 in 2011 and it's improving & better than province and district.

Poverty Rate

Table 8: Poverty rate

Year	rate
2001	62.60
2010	45.40

Source: STATS SA census 2001 and 2011

Poverty rate is at 45.40% this indicates that it's decreasing and lower than district but higher than province and 193 764 poor people – third highest number in province. Poverty gap recorded at R1.1 billion in 2011 – increasing trend & highest/worst in province. Second most deprived area in the province according to the Multiple Deprivation Index of Oxford University.

Unemployment rate

Table 9: Unemployment rate

Unemployment rate (Strict definition)	Census	%
General(15-65 years)	1996	53.89
	2001	63.50
	2011	52.11
Persons with Disability(15-65 years)	1996	54.70
	2001	60.19
Women(15-65 years)	1996	60.19
	2001	68.38
	2011	56.17

Unemployment rate (Strict definition)	Census	%
Youth(15-35 years)	1996	61.95
	2001	74.57

Source: STATS SA census 1996, 2001 and 2011

The unemployment is higher than the employed because most of the employed people are employed in the community services sector (government) and that alone without cannot accommodate all people. Tourism and agriculture are the potential sector but there is lack of investment in those sectors. Most of the farms and irrigation are under resuscitation by the sector departments in collaboration with the municipality in order to employ more personnel from the community.

Household income

Income	Census	No. households
R 1 - R 4800	2011	12075
R 4801 - R 9600		20199
R 9601 - R 19 600		29927
R 19 601 - R 38 200		25684
R 38 201 - R 76 400		10962
R 76 401 - R 153 800		6571
R 153 801 - R 307 600		3976
R 307 601 - R 614 400		1504
R 614 001 - R 1 228 800		240
R 1 228 801 - R 2 457 600		102
R 2 457 601 or more		83

Source: STATS SA census 2011

In Bushbuckridge Local municipality's households' income is relatively low in the province as its ranked number 13 as per department of finance 2011 report. An income of R9601 – R19 600 has the most households surviving on it followed income from R19 601 – R38 200 with 29927. The average households' income is R36 569.

Number of social grants recipients (per grant type)

Table 10: Social grant recipients

Grant type	Census	recipients

Grant type	Census	recipients
Old Age	2011	34 069
War Veteran		0
Disability		11 760
Foster Care		3 219
Care Dependency		1 659
Child Support		98 683
Grant-in-Aid		137

Source: STATS SA census 2011

In Bushbuckridge Local Municipality there are 34 069 old age grant recipients as the highest followed by 98 683 child support grants recipients. There are 11 760 disability grant recipients and there's no war veteran recipient.

Employment by industries

Source: STATS SA census 2001 and 2011

Bushbuckridge Local Municipality is the second highest municipality with high unemployment rate after Nkomazi Municipality. Employment opportunities are very minimal given the nature of the municipality hence the nodal status. The leading industries in terms of employment its community services (government) with (41.2%) and trade with (20.6%). There is increasing role/share of community services as employer & decreasing role/share of agriculture and trade. There is no large scale of mining in the municipality as there no underground resources. The mining that is being practiced its sand mining and stone crashing.

Education (Highest Educational attainment)

The municipality values education as an important aspect in the developing community and as a result some vulnerable and child headed families finds it difficult to access basic education. The municipality is committed to provide psycho-social support programs for learners and educators through the facilities provided by the department of education. The municipal area has 213 primary schools, 119 secondary schools (1 NEPAD e-school), 4 combined schools and further education and training institutions.

Access to basic education is realized and made possible through the provision of free Learner Support Materials and by also declaring other school no-fee schools for the previously disadvantaged communities. However, higher education remains a challenge since there is no proper higher education institution within the boundaries of the province.

However, serious problems are experienced in many of these schools including overcrowding, high failure rate that could be attributed to poor infrastructure and facilities. There are other educational facilities which are currently not used for education purposes such as Mapulaneng and Hoxani colleges of Education. Currently there are two community libraries to serve the community of Bushbuckridge municipal area.

The Municipality has realized a 37% reduction in illiteracy, an attribute in the access to Adult Basic

Education and Training (ABET). In comparing the illiteracy level of the Census 2001 conducted by the Statistics S.A and the Community Survey of 2007 of the same, Census 2001 recorded 86 866 people aged 20 and above with no Schooling while Community Survey recorded 54, 696 with about 32, 170 difference which indicates a drop in illiteracy rate.

Table 2: Highest levels of Education in the Municipality

EDUCATION INDICATORS	Trend 2001	Latest figure 2011	Better (+) or worse (-) than Ehlanzeni	Better (+) or worse (-) than province	Ranking: best (1) – worst (18)
Number of people 20+ with no schooling	88 366	50 737			17
Population 20+ with no	39.4%	18.6%	(-) (16.6%)	(-) (14.0%)	15

EDUCATION INDICATORS	Trend 2001	Latest figure 2011	Better (+) or worse (-) than Ehlanzeni	Better (+) or worse (-) than province	Ranking: best (1) – worst (18)
schooling (%)					
Population 20+ with Matric and higher (%)	18.5%	33.1%	(-) (38.5%)	(-) (38.5%)	12
Functional literacy rate (%)	46.4%	74.0%	(-) (75.4%)	(-) (76.9%)	11

Source: Mpumalanga Department of finance 2010- socio-economic profile

Percentage of population 20+ with no schooling 18.6% it's the fourth highest/worst. Population 20+ with Matric and higher 33.1% it shows improvement but lower than district and provincial averages. Functional literacy rate (15+ with grade 7+) 74.0% – improving but worse than the district and province. Matric pass rate in 2012 at 61.7% - improving but lowest in province – very low degree/university admission rate.

3.3.9. 2012 Matric results

Local municipal area	Pass rate	Admission to:		
		Bachelor studies	Diploma studies	Higher Certificate studies
Bushbuckridge	61.7%	11.7%	26.4%	22.9%

Source: Statistics SA 2011 census

There has been a slight improvement of Matric results of 2012 compared to 2011 results but when compared the other seventeen (17) municipalities in Mpumalanga it is ranked last.

3.3.10. HEALTH STATUS

Bushbuckridge Local Municipality has 3 equipped hospitals, 3 health centers, 37 operational clinics and 5 mobile teams. The challenge the municipal faces inadequate medical services in most clinics due to poor supply of medication. These do not dispute the changes that the department has done in the past years in upgrading the service delivered to the communities in other clinics. There are sufficient programs targeting youth, women and disable people in the communities within the Bushbuckridge Local Municipality's jurisdiction. Health is responded to as a major component of service provided by the municipality.

Table 11: Public health facilities

PUBLIC HEALTH FACILITIES	2011
Number of clinics	37
Number of community health centers (CHC)	3
Number of hospitals	3

Source: Statistics SA 2011 census

HIV & AIDS

HIV prevalence rate of pregnant women was 27.4% in 2011 the second lowest rate in the province. HIV prevalence rate excluding pregnant women was 16.8% in 2011 a decreasing trend. TB cases are increasing since 2010 as its second highest (worst) among the 18 municipal areas between 2010 and 2011.

Bushbuckridge Local Municipality as a custodian of service delivery has a mandate to respond to HIV and AIDS as a developmental problem. The municipality envisages promoting good behavioral patterns and practices through activities that are aligned and coordinated to enable sustainable socio-economic and human capacity in responding to challenges in addressing the pandemic.

Further, the struggle against HIV/AIDS needs all the sectors, formations and stakeholders of our society to be involved.

In the municipality, an estimated infection rate is 29% average. Currently there are 12 service points that are accredited as Ant-Retroviral (ARV) treatment centers. One private clinic (Bhubezi clinic) Mapulaneng & Tinstwalo Hospitals, Maviljan Health Centre, Agincourt Clinic, Thulamahashe and Casteel Health Centers are accredited health institutions for providing ARVs. Currently estimations indicate that there are more than 4 200 people taking Anti-retroviral treatment in Bushbuckridge Municipal area. The most infected are the economically actives groups (women & men) between the age of 18 - 40. The municipality has further developed and adopted workplace policy that is aimed at assisting employees who are affected and infected with HIV/AIDS pandemic.

There are also supporting institutions within the municipal area in the form of Home Based Care Facilities across Bushbuckridge municipal area, mainly aimed at assisting people and families who on a daily basis live with the pandemic. These institutions are supported by the department of social development and welfare as the main sponsor.

3.3.11. Top ten causes of death

Death causes	Number
---------------------	---------------

Tuberculosis (A15-A19)	723
Intestinal infectious diseases (A00-A09)	577
Influenza and pneumonia (J09-J18)	428
Human immunodeficiency virus [HIV] disease (B20-B24)	316
Cerebrovascular diseases (I60-I69)	234
Other forms of heart disease (I30-I52)	205
Other external causes of accidental injury (W00-X59)	160
Other bacterial diseases (A30-A49)	140
Other acute lower respiratory infections (J20-J22)	136
Diabetes mellitus (E10-E14)	131

Source: STATS SA census 2011

In the municipality the highest cause of death is tuberculosis with 723 deaths, Intestinal infectious diseases are at 577 and the least cause of death is diabetes mellitus with 131 deaths recorded.

3.3.12. Anti-natal HIV prevalence rate

Census	%
2009	25.50
2010	28.80

Source: Mpumalanga department of Health

Anti-natal prevalence is the number of pregnant women who tested positive for HIV in clinics. In Bushbuckridge Local municipality anti-natal prevalence has increase as according to the Mpumalanga department of health in 2009 it was at 25.50% then went up to 28.80% in 2010. There must be emphases on the mainstreaming of HIV in the municipality through partnership of the municipality and the department of health to fight this prevalence.

Household profile and services

BASIC SERVICE INFRASTRUCTURE INDICATORS	Trend 2001	Latest figure 2011	Better (+) or worse (-) than Ehlanzeni	Better (+) or worse (-) than province
% of households in informal dwellings	2.9%	1.2%	(+) (4.8%)	(+) (10.9%)
% of households with no toilets	22.6%	13.1%	(-) (10.8%)	(-) (7.2%)
% of households with connection to(tap) piped water: on site &	74.3%	79.0%	(-) (81.0%)	(-) (87.4%)

off site				
% of households with electricity for lighting	79.0%	93.9%	(+) (88.9%)	(+) (86.4%)
% of households with weekly municipal refuse removal	6.4%	7.5%	(-) (24.7%)	(-) (42.4%)

Source: Department of finance 2010

Basic service delivery/infrastructure infrastructure indicators of Bushbuckridge Local Municipality are worse than district and provincial figures with the exception of informal dwellings and electricity for lighting indicators. It is also ranked best and second best with informal dwellings and electricity for lighting indicators. Second worst percentage of households with weekly municipal formal refuse removal due to that the municipality is mostly rural with only five R293 towns where refuse is collected on a daily basis. The municipality is the third worst with no toilets and fourth worst with connection to piped water.

Number of households

Table 12: number of households:

Census	Number
1996	113 199
2001	110 586
2011	134 197

Source: STATS SA census 1996, 2001 and 2011

In the municipality there were 113 199 households from the 1996 census count, after a five year there was a decrease to 110 586 according to the 2001 census then in the 2011 census count it indicates an increase with 134 197 households counted.

Annual growth rate of households

Table 13: Annual households' growth rate

Census	%
1996-2001	-0.23
2001-2011	1.94

Source: STATS SA census 1996, 2001 and 2011

In Bushbuckridge Local Municipality over a period of five (5) years, the households' growth rate was -0.23 annually between 1996 and 2001. While between 2001 and 2011 the growth rate was 1.94 annually over a period of ten (10) years.

Average households size

Table 14: Average households size

Census	%
1996	4.76
2001	4.48
2011	4.02

Source: STATS SA census 1996, 2001 and 2011

In the municipality the number of households' size is decreasing as it's at 4.02 as per 2011 census which is a decrease as it was on 4.76 in 1996 census and 4.48 on 2001 census count.

Types of dwellings

Table 15: Types of dwellings

Types of dwelling	Number
House or brick/concrete block structure on a separate stand or yard or on a farm	127570
Traditional dwelling/hut/structure made of traditional materials	3634
Flat or apartment in a block of flats	380
Cluster house in complex	75
Townhouse (semi-detached house in a complex)	11
Semi-detached house	58
House/flat/room in backyard	286
Informal dwelling (shack; in backyard)	746
Informal dwelling (shack; not in backyard; e.g. in an informal/squatter settlement or on a farm)	851
Room/flat let on a property or larger dwelling/servants quarters/granny flat	290
Caravan/tent	58
Other	238

Source: STATS SA census 2011

The type of dwellings found in the municipality are House or brick/concrete block structure on a separate stand or yard or on a farm with 127570 followed by traditional dwelling/hut/structure made of traditional materials with 3634 the least of the dwellings its townhouse with 11 as the municipality is predominantly rural.

Households with access to:

Table 16: Households with access to services

Services	Census	Percentage
Water(municipal tap)	1996	80.19
	2001	74.58
	2011	61.77

Services	Census	Percentage
Electricity(lightning)	1996	34.23
	2001	79.03
	2011	94.17
Sanitation(flush/Chemical)	1996	4.30
	2001	12.62
	2011	10.41
Refuse Removal(At least once a week)	1996	4.59
	2001	6.39
	2011	7.48

Source: STATS SA census 1996, 2001 and 2011

In the municipality theirs is still a challenge when it comes to delivering basic services though successes have been recorded as well. There has been a decrease with the access to water (municipal tap) as in census 1996 it was at 80.19%, in 2001 it was at 74.58% and in 2011 census it indicates a further decrease with 61.77%, there are several factors that might have contributed to the decline such as failure of the Inyaka Acornhoek bulk, increase in population, etc.

With regards to electricity for lighting the stats show that the municipality together with Eskom is doing great in with census 2011 shows a great improvement with 94.14% of the population using electricity as compared to 79.03% in 2001 census and 34.23% in the 1996 census count.

The municipality is not performing well when it comes to sanitation (flush/chemical) as the stats show that only 10.41% have access as per 2011 census and also there is a challenge with refuse removal as only 7.48% have access as 2011 census.

3.4. MUNICIPAL SWOT ANALYSIS

Table 17: SWOT Analysis

MUNICIPAL EXTERNAL ENVIRONMENT	
Strengths	Weaknesses
<ul style="list-style-type: none"> The area is located in close proximity to the world famous Kruger National Park, the Maputo sub-corridor and forms part of the Canyon to Kruger biosphere, which makes it attractive for tourism. The Municipality has a potential for 	<ul style="list-style-type: none"> Poor public road infrastructure, facilities and pedestrian access, to enable service delivery and economic development. Lack of unified marketing strategy which limit agricultural development Lack of economic hub or development centre to facilitate economic

<p>developing the local economic hub through our indigenous wealth in the form of agricultural farming and tourism.</p> <ul style="list-style-type: none"> • The municipality has diversified skilled labour force base to enable growth and development. • Decentralised service delivery points in the form of the eleven regional offices. • Potential to economic hub in the areas such as Mkhuhlu, Acornhoek, Thulamahashe and Dwarsloop 	<p>development.</p> <ul style="list-style-type: none"> • Poor involvement and benefits in tourism for the local communities • Lack of development of retention strategy. • Lack of revenue enhancement and collection strategy. • Lack of scarce skilled employees e.g. Engineers, Technicians and Accountants
MUNICIPAL EXTERNAL ENVIRONMENT	
Opportunities	Threats
<ul style="list-style-type: none"> • Proximity to Kruger National Park • Potential to multi-cultural indigenous tourism points • Existence of a number of public and private owned game and nature reserves for eco-tourism developments • Potential to economic growth through agriculture 	<ul style="list-style-type: none"> • HIV/AIDS pandemic • Global warming and climate change • High unemployment rate • Migrant labour • Uncoordinated land use • Crime • Poverty • Immigration

The Current Challenges facing the Bushbuckridge Municipality include the following:

- ❖ Poor road network to enable easy movement for the community that will facilitate economic development.
- ❖ Lack of a development strategy for the municipal area based on a proper land audit.
- ❖ Lack of sufficient bulk water supply, reservoirs and reticulations.
- ❖ Lack of strategy to attract skilled labour force and to retain the skilled personnel.
- ❖ Inadequate health facilities and poor supply of medicines to clinics.
- ❖ Lack of a reliable and structured waste management plan for waste disposal in the area.
- ❖ Lack of effective debt collection and revenue generating strategies.

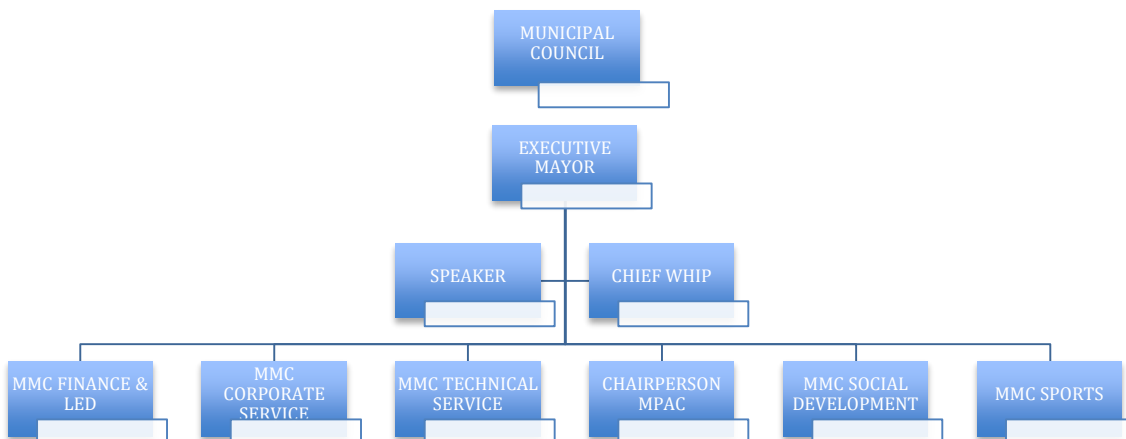

3.5. Municipal Institutional Structure

To deal with challenges of service delivery and performance of certain powers and functions, Bushbuckridge Local Municipality has developed a structure, which caters for the following stakeholders:

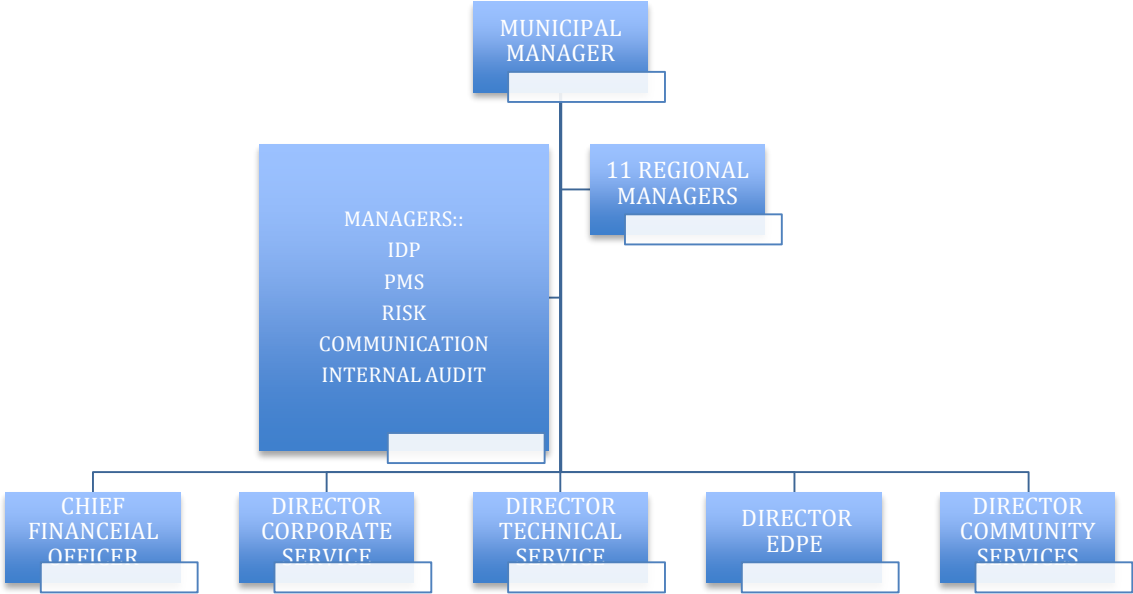

- ❖ Municipal Manager
- ❖ Chief Financial Officer (CFO)
- ❖ Directorate : Corporate Services
- ❖ Directorate : Social Services
- ❖ Directorate : Economic Development, Planning and Environment
- ❖ Directorate : Technical services

3.6. ENVIRONMENTAL ISSUES

Blue drop (water quality)

Table 19: Blue drop status

MUNICIPAL AREA	2010	2011	2012	Ranking: best (1) – worst (18)
Bushbuckridge	8.4	29.8	30.8	13

Source: STATS SA Census 2011

The performance of the drinking water quality (DWQ) management in Bushbuckridge Local Municipality together with the Bushbuckridge Water Board remains much the same as that for last year's assessment. The scores acquired by both institutions indicate that they are still some way off achieving Blue Drop status, but the increase in registered supply systems assessed during this assessment cycle has allowed for a more focused, system specific assessment. Furthermore this focused approach to DWQ management per supply system will allow the municipality to improve the identification of area-specific problems which require their immediate attention. The commitment of the Water Board management toward DWQ is highly commendable; however, the DWA Inspectors expressed great concern regarding commitment from the municipal management, since they did not attend the confirmation session. The relationship between the WSA, the local municipalities and the Water Board should be consolidated and the roles and responsibilities of the relevant role players should be made clear.

CHAPTER 4:

4. STRATEGIC OBJECTIVES

4.1. Municipality Vision

Bushbuckridge Local Municipality strives for developmental and prosperous life for all.

4.2. Municipality Mission

Through accountability, transparency and responsible governance, the municipality commits itself to provide affordable and sustainable services by enhancing community participation.

4.3. Municipality Core Values

- Accountability
- Transparency
- Responsible governance
- Efficient service delivery

4.4. Municipal Goals and Strategic Objectives

Municipal Goals	Strategic Objectives
Goal 1: Ensuring integrated development planning for the Municipality as a whole	<ul style="list-style-type: none"> • Strengthen existing IDP structures • Improve the IDP and budget planning process • Ensure implementation of IDP priorities • Allocate available funds to identified priorities on a Multi-Year Plan • Promote Public-Private-Partnerships Ensure implementation of tourism and LED strategy
Goal 2: Promoting bulk infrastructural development and services for the Municipality as a whole	<ul style="list-style-type: none"> • Conduct research and development on existing and future infrastructure development and services • Solicit additional funding for infrastructural development and services • Monitoring the implementation of capital projects and services
Goal 3: Building the capacity of BLM to perform its functions and exercise its powers where such capacity is lacking	<ul style="list-style-type: none"> • Assess the capacity of Bushbuckridge Local Municipality • Provide support to regional offices • Strengthen inter-governmental relations

Municipal Goals	Strategic Objectives
Goal 4: Promoting the equitable distribution of resources between all the wards in the Municipal area to ensure appropriate levels of municipal services within the areas	<ul style="list-style-type: none"> • Conduct constant monitoring of municipal services • Facilitate appropriate response for identified priority needs
Goal 5: Building a modern and performance driven municipality	<ul style="list-style-type: none"> • Implement performance management system • Create awareness and buy-in to BLM strategy • Improve communication strategy • Continuous assessment and staff development through PMS

4.5. DEVELOPMENTAL STRATEGY PRIORITY ISSUES

The municipal objectives and strategies should focus on the strategic intent of the municipality in achieving the vision and mission in line with the identified priority issues and program.

KEY PERFORMANCE AREAS AND STRATEGIES

KPA: Basic Services and Infrastructure						
Goal: To develop and upgrade infrastructure that will assist the municipality to provide easy access to affordable and sustainable services and facilitate economic development						
Priority Issue	Project Objective	Measures		Target/Milestone	Date/Time Frame	Programme Budget
		Output/Baseline	Outcome/Indicator			
Water Infrastructure	Projects to achieve Presidential targets	All households provided with quality affordable water	80% satisfaction rate for household having access to quality water	100% of the total households in the municipal area	2016	R 1,273B

KPA: Basic Services and Infrastructure						
Goal: To develop and upgrade infrastructure that will assist the municipality to provide easy access to affordable and sustainable services and facilitate economic development						
Priority Issue	Project Objective	Measures		Target/Milestone	Date/Time Frame	Programme Budget
		Output/Baseline	Outcome/Indicator			Total Projects Allocation
Sanitation	Provide an adequate and appropriate sewer systems for the urban part of the municipality as well as VIP's for the rural conditions	60% of households with appropriate sewer systems for both rural and urban communities	80% of households having access to basic sanitation	100% of the total households in the municipal area	2016	R 298m
Electrification of Households	Provide affordable and reliable electricity to urban and rural areas in the municipality	80% of electrified homes for households earning incomes between R800 and R110	80% of households with affordable and reliable electricity	100% of total households with electricity in the municipal area	2016	R 89m
Roads and Bridges	Provide safe and appropriate road and storm water networks in the municipal areas	Safe road and storm water networks	Improved accessibility and safe roads between areas	Safe road and storm water network	2016	R 342m

KPA: Basic Services and Infrastructure						
Goal: To develop and upgrade infrastructure that will assist the municipality to provide easy access to affordable and sustainable services and facilitate economic development						
Priority Issue	Project Objective	Measures		Target/Milestone	Date/Time Frame	Programme Budget
		Output/Baseline	Outcome/Indicator			Total Projects Allocation
Waste Management and Refuse Removal	Provide a safe, effective and economical waste management and refuse disposal system	Households with access to waste management and refuse disposal system (per area or specific area and include time frame	90 % households satisfaction index	100% households	2016	R 14m
Transport	Promote an effective and affordable transport system to cater for the whole of the municipal area	Transport infrastructure and system projects implemented	Improved transport accessibility between the areas	Transport infrastructure and system projects	2016	R36m
Housing	Ensure that the housing need of people in the municipal area is met	Number of houses constructed	Number of households with basic housing	100% households with housing	2016	R 40m

KPA: Basic Services and Infrastructure						
Goal: To develop and upgrade infrastructure that will assist the municipality to provide easy access to affordable and sustainable services and facilitate economic development						
Priority Issue	Project Objective	Measures		Target/Milestone	Date/Time Frame	Programme Budget
		Output/Baseline	Outcome/Indicator			Total Projects Allocation
Cemeteries	Provide safe, appropriate and accessible burial space/cemetery space in the municipal area	Number of hectares of land acquired for cemeteries	Number of complaints from bereaved families	< 1 family with a complaint	2016	R 4m
Posts and Telecommunications	To ensure that a basic communication infrastructure is within reach of all the inhabitants in the municipal area	Number of projects on basic communication infrastructure implemented	Improved access to communication by inhabitants in the municipal area	Communication infrastructure projects	2016	R 6m
Land tenure and Land Use Management	Ensure lawful security of tenure	20% compliance with land tenure legislation	30 % of land security tenure	100% compliance of land tenure legislation	2016	R117m

Economic Development

KPA: Local Economic Development						
Goal: To accelerate economic development leading to increase in job creation and poverty alleviation						
Priority Issue [Programme]	Objective	Measures		Target	Date/ Time frame	Projects Budget
		Output	Outcome			
Local Economic Development	Ensure economic growth in all sectors of the economy in order to half poverty	3% of economic growth in all sectors of the economy	3% of economic growth or GDP contribution to the province	3% GDP for the area	2016	R 682m

Community Services

KPA: Community Services						
Goal: To improve the standard of living, literacy, healthcare and safety for the community of Bushbuckridge						
Priority Issue [Programme]	Objective	Measures		Target	Date	Programme Budget
		Output	Outcome			
Health	Promote the development of a healthy community and an effective healthcare environment	20 awareness programmes and campaigns conducted	<ul style="list-style-type: none"> ▪ 50 reduction in cases of deadly diseases ▪ Change in community behaviour 	< 15 cases a month	2016	R 240m
Social Welfare	Ensure improved living standards and promote humane living conditions for every member of society	80 of households with improved living standards and conditions	85% of households satisfaction index	5% increase in the household satisfaction index	2016	Sector department

KPA: Community Services							
Goal: To improve the standard of living, literacy, healthcare and safety for the community of Bushbuckridge							
Priority Issue [Programme]	Objective	Measures		Target	Date	Programme Budget	
		Output	Outcome			Total Allocation	Projects
Education	Promote the provision of effective education to all learners and equip people to lead a meaningful life	Number of schools and training centres established in the area	Number of learners and scholars with accredited qualifications	1000 Learners and 2000 scholars	2016, basic primary, other 2016	R 354m	
Safety and Security	Ensure a safe, secure and humane environment for inhabitants of the municipality	20% reduction in crime related incidents	30% reduction in crime statistics	30% reduction	2016	R 88m	
Sports and Recreation	Ensure accessibility to Sport and Recreation facilities for all the inhabitants of the municipal area	Number of sports and recreation facilities developed	Number of inhabitants having access to sports and recreation events at the municipal area facilities	100% inhabitants attending major sporting and recreational events	2016	R 58m	
Arts and Culture	Social and cultural integration as well as conservation of important cultural and historic sites	Preservation and maintenance of identified cultural and historical sites	Number of inhabitants having access to sports and recreation events at the municipal area facilities	100% inhabitants attending major sporting and recreational events	2016	Sector Dept.	

KPA: Community Services							
Goal: To improve the standard of living, literacy, healthcare and safety for the community of Bushbuckridge							
Priority Issue [Programme]	Objective	Measures		Target	Date	Programme Budget	
		Output	Outcome			Total Allocation	Projects
Emergency Services	Ensure fire-fighting and ambulance services which are safe, secure, humane, prompt and effective	Response time to emergencies in minutes	Improved response time to emergencies in minutes	At least 15 – 25 minutes for each category of emergency	2016	EDM	
Environmental Management	Ensure that the general environment is protected and promoted in a sustainable and ongoing way	Environmental Assessment Plan	60% achievement of environmental targets in the Environmental Assessment Plan	70% target achievement	2016	R 16M	

Institutional Transformation

KPA: Institutional Transformation and Development							
Goal: To cultivate institutional performance driven culture in order to achieve the municipal strategic objectives							
Priority Issue [Programme]	Objective	Measures		Target	Date	Programme Budget	
		Output	Outcome			Total Allocation	Projects
Training and Skills Development	Improve employee skills and competencies	100% of employees developing Personal	60% of performing employees contributing to productivity	75% of employees	2012	R 2m	

		Development Plan targets				
Recruitment to fill vacant post	Recruitment of competent and skilled personnel	45 posts filled	95% reduction in vacancy rate	15 employees at management level	2012	R 15M
Organisational Infrastructure	Implement and upgrade computer systems	ICT Plan implementation	Uptime availability and function of the system	98% uptime and running of the sys.	2012	R 1M

Democracy and Governance

KPA: Democracy and Governance							
Goal: Ensure an efficient and sustainable municipality in compliance with the Municipal Finance Management Act, Municipal Systems Act and other related legislative guidelines							
Priority [Programme]	Issue	Objective	Measures		Target	Date	Programme B Budget
			Output	Outcome			
Service Delivery Standards (Batho Pele)		Implementation of the Batho-Pele Principles	Batho-Pele Plan	Compliance with customer standards	100% compliance and customer satisfaction	2012	R 1.8m
Performance Management Systems		Develop appropriate key performance indicators	Number of quality key performance indicators	Number of KPIs used for reporting the IDP	According standards	2010	R 4.7m

Financial Viability and Management

KPA: Financial Viability and Management							
Goal: Improve Revenue generation; and that the is a sound financial management system in compliance with the municipal financial management system							
Priority [Programme]	Issue	Objective	Measures		Target	Date	Programme Budget
			Output	Outcome			
						Allocation	
Financial Management		Improve debtor revenue	Debtors to revenue ratio	Improved financial rating of the municipality	2% and below 8%	30 June 2010	

Public Participation and Good Governance

KPA: Public Participation and Good Governance							
Goal:							
Priority [Programme]	Issue	Objective	Measures		Target	Date	Programme Budget
			Output	Outcome			
						Allocation	
Public Participation and Good Governance		Improve public participation to enhance good governance	Accountability to the public	Improved reporting on the Annual Performance Report and the outcome of the AG	100% accountability to the Public	30 June 2011	

	Priority Issue	Baseline	Problem Statement	Goals	Strategies
1	Portable and Clean Water	The municipality is planning to reduce the current backlog by 40% by 2015	Bushbuckridge as a water scarce area with only Inyaka Dam as the main source of water has, at least 70% of the communities without bulk water supply, almost 60% without tapped water and at least 75% without yard water connection. The majority of the communities (an average of 70% of the population) still rely on water from the boreholes and very few who has drilled boreholes for water that may be contaminated due to back yard burials and pit toilets used in the rural villages.	To meet the Presidential target for the Bushbuckridge population, provide potable water by 2014, and increase water access to emerging farmers thereafter.	<p>Strategy A: Provision of potable water by the municipality through bulk supply, reticulation, purification and storage infrastructures</p> <p>Strategy B: Refurbishing of dysfunctional water Infrastructure</p> <p>Strategy C: Installing infrastructure where it does not exist</p> <p>Strategy D: Establishing partnerships with communities for installation of metered water supply (cost recovery)</p>

	Priority Issue	Baseline	Problem Statement	Goals	Strategies
2	Sanitation	Pit toilet backlog to be reduced by 15% and dry toilet by 5% by 2015	With the majority of the households without proper sanitation in the municipal area, the challenge is that the municipality experiences the outbreaks of cholera and other unidentified sicknesses. Almost 65% of the households uses pit toilet without ventilation, about 25% using dry toilet system and 10% uses sewerage system without proper drainage system.	To meet the Presidential target for the Bushbuckridge population, being VIP's or water-borne by 2014. The municipality is planning to maintain sewerage system	Strategy A: Implement an EPWP VIP project to erect panel based structures Strategy B: To provide water borne sewerage systems as adequate bulk water becomes available
3	Roads and Bridges	Construction of storm water drainage on all roads by 2015	Bushbuckridge Local Municipality's roads are characterized by poor gravel roads with unclearly defined road network links due to conditions of the roads. The entire roads infrastructure has limited storm water drainages and poor maintenance strategy and results, some tarred roads are been destroyed by rains. There is also limited access to bridges to provide sufficient linkage on communities for economic engagements.	Improvement of gravel road by construction and maintain internal streets in all wards	Strategy A: Upgrade and rehabilitate access roads and internal main roads Strategy B: Upgrading and re-gravelling as part of the road upgrading and rehabilitation program Strategy C: Construction of storm-water drainage as part of the road upgrading and maintenance program Strategy D: Construction and tarring of district and provincial roads

	Priority Issue	Baseline	Problem Statement	Goals	Strategies
4	Transport	Construction of multi-modal taxi rank by 2015 (Department of Public works)	The community of Bushbuckridge Local Municipality depend on buses and taxis as mode of transport. In rural areas only buses are the only mode of transport, transporting people to work, school and shopping complexes for shopping. There is a problem with overloading because the transport is not enough for the communities. Most of the taxis in rural areas are not road worthy and this is a result of poor road infrastructure. Trains are used to transport goods and the locals use it during holidays only.	Increase access to public integrated transport system.	<p>Strategy D: Ensure that transport and communication systems are user friendly to disabled people</p> <p>Strategy E: develop a transport plan and align it with national policies</p> <p>Strategy F: Extension of traffic centers at Mkhuhlu and Acornhoek.</p> <p>Strategy G: Reduce pedestrian and commuters accidents by constructing a pedestrian walk ways and bridges.</p>
5	Telecommunication	95% having access to cell phones. 90% of the population are without access of internet	The community depends on cell phones and public phones for communication and only few people have access to internet and Thusong Service Centers.	Monitor the construction of two Thusong service centers	<p>Strategy A: Facilitate the provision of public phones to all communities of Bushbuckridge</p> <p>Strategy B: Facilitate the provision of post offices within access to all communities</p> <p>Strategy C: Provide communication services to communities/villages.</p>
6	Energy	BLM depends on Eskom as the	Bushbuckridge Municipal Area still has about 9.7% of the households without	The municipality is aiming to reduce	Strategy A: Speed up electrification of settlements

	Priority Issue	Baseline	Problem Statement	Goals	Strategies
		electricity provider. 80 % has access to electricity.	access to electricity, with 7.8% using candles fro lighting, 1.2% rely on paraffin for energy and about 0.7% uses solar panel as source of energy.	electricity backlog by 10% by 2014. To also use alternative source of electricity. To acquire electricity licence. Construction of Hymast lamps and street lights	<p>Strategy B: Facilitate the upgrading of electricity stations to minimize power failure.</p> <p>Strategy C: Acquire electricity supply license and service its communities</p> <p>Strategy D: Provision of floodlights as well as streetlights.</p>
7	Local Economic Development	90% tourism attractions are along the Kruger National Park e.g Andover game reserve and Manyeleti Nature reserve	Bushbuckridge Local Municipality depends on Agriculture and Tourism as key drivers of the local economy. The municipality does not have enough land for development since large portions of the land belongs to the traditional authorities or leaders. Most of the portions of land which are earmarked for tourism are still under land claims which make it difficult for the municipality to develop. Agriculture is only practiced for subsistence farming and not for business purposes which will/can assist in job creation. Most of the industrial areas are dilapidated and need resuscitation.	Acceleration of land claims by Department of Land Affairs	<p>Strategy A: Create an environment that is conducive for economic growth.</p> <p>Strategy B: Promote tourism by establishing arts and cultural centers</p> <p>Strategy C: Promote commercial farming opportunities by capacitating the existing farmers</p> <p>Strategy D: Revive and upgrade small-scale commercial projects</p>
8	Health	30% are without access to health facilities and 70% have access to the facilities. (There are 34 clinics	The municipality has only three hospitals, two health centres and 34 clinics which make it difficult for the communities to access health facilities. It is not easy for the ambulances to reach certain areas	To provide and maintain basic health services to reduce mortality rates and	<p>Strategy A: To increase access to primary health care to all wards</p> <p>Strategy B: To reduce the spread of HIV/AIDS and</p>

	Priority Issue	Baseline	Problem Statement	Goals	Strategies
		against 37 wards)	because of poor road infrastructure. The three hospitals have a high number of people who use it on daily basis for consultations.	communicable diseases Monitor the construction of clinics	minimize the outbreaks of Cholera and prevention of Malaria infections.
9	Social development	No rehabilitation center, the rate of unemployment and HIV/AIDS are very high	The social issues remain a challenge in the municipality as most of the youth are unemployed, HIV positive, involved in criminal activities, usage of drugs and teenage pregnancies. There are no rehabilitation centers within the municipal boundary. The other challenge is that of most of the elder people receive their social grants in public areas next to busy roads and this causes a lot of unnatural deaths and traffic disruptions.	Provide access to social services and reduce teenage pregnancy and domestic violence by 2015	Strategy A: To reduce the levels of teenage pregnancy by developing programs that, are aimed at educating the community. Strategy B: To reduce domestic violence activities by developing educational programs Strategy C: To monitor and support welfare projects those are currently operational.
10	Safety & Security	The number of police stations are not enough to help reduce crime in all the wards	The Municipality has a high rate of people who are not working this contribute on the high rate of crime. The Municipality is serviced by four Police stations and out of the four one does have its own building as it uses a multipurpose as its base. The issue of immigration contributes to high number of who are unemployed and increase the population.	<ul style="list-style-type: none"> • To reduce crime rate and increase police visibility • To increase access to emergency services to people of Bushbuckridge and reduce mortality accidents 	Strategy A: To reduce the crime rate through safety cluster forums Strategy B: To provide accident response unit with a toll free hotline number and provide 24 hours ambulance services to all communities Strategy C: Upgrade existing fire station and establish extra services in other areas.

	Priority Issue	Baseline	Problem Statement	Goals	Strategies
					Strategy D: Increase the visibility of traffic police in the Municipal roads.
11	Environmental Management	<p>The municipality has budgeted for parks in the 2014/15 financial year.</p> <p>There is also for cleaning greening projects</p>	Unsustainable utilization of the natural environment, degradation of natural resources and irreversible destruction of sensitive environments.	<p>-Environmental protection and sustainable environmental development</p> <p>-Ensure that activities undertaken within the municipality comply with environmental legislation.</p>	<p>Strategy A: Implement compliance monitoring to environmental legislation and best practices.</p> <p>Strategy B: Ensure municipal projects comply with environmental legislation.</p> <p>Strategy B: Ensure Spatial Development Frameworks incorporate environmental parameters to curtail rural sprawl and habitat fragmentation.</p> <p>Strategy C: Greening</p> <p>Strategy D: Promotion of environmental education and awareness campaigns</p> <p>Strategy E: Promote protection and rehabilitation of wetland</p> <p>Strategy F: Open space conservation and management</p>

	Priority Issue	Baseline	Problem Statement	Goals	Strategies
12	Waste Management	Currently there is no approved landfill site which meets the requirements as per legislation. There are four unlicensed but there is budget for licensing one landfill site in Thulamahashe in the 2014/15 financial year	Rendering efficient and effective Waste management services is a serious challenge for the municipality. Poor waste management services have resulted on negative impacts on the natural environment.	<p>-Ensure the Municipality has a permitted landfill site.</p> <p>-Implement waste minimization strategies</p> <p>-Ensure the review of the Integrated Waste Management Plan</p>	<p>Strategy A: Increase access to basic refuse collection.</p> <p>Strategy B: Separate waste streams at source</p> <p>Strategy C: Reduce waste taken to landfill sites</p> <p>Strategy D: Establish recycling facilities</p> <p>Strategy E: Conduct clean-up campaigns coupled with environmental education.</p> <p>Strategy F: Develop a maintenance plan for waste equipment and fleet.</p> <p>Strategy G: Ensure the implementation of the Integrated Waste Management Plan</p>
13	Land Use and Spatial Planning	The municipality has projects on land tenure upgrading and establishments of township. A SDF has been	The Municipality owns about 20% of the land with the remainder of 80% controlled by the Traditional Authorities. No coordinated development exist in the land controlled by the Traditional authorities as prime land with agriculture potential for are allocated for	Municipality to formalize settlements in priority nodes in terms of the SDF. Issuing of free title hold to the community and provision of basic infrastructure in the	<p>Strategy A: Accelerate land allocation for development especially for economic growth.</p> <p>Strategy B: Identify areas, which need immediate attention in terms of tenure security</p>

	Priority Issue	Baseline	Problem Statement	Goals	Strategies
		approved by the Council in 2011	undeveloped development which affect the aim and purpose of the SDF serve as guide to undefined land uses creates lots of problems in terms of management and control of land uses and also hinders the implementation of other land regulations.	<p>formalized areas. Establish Land Use Scheme that will control land development in Bushbuckridge.</p> <p>Development of a Land Tenure Upgrading Business plan that will give direction in terms of identifying areas to be formalized.</p> <p>Establish the SDF that will direct future development in the area and such SDF to inform the IDP of the Municipality.</p> <p>Municipality to have control of 100% of its area of Jurisdiction in terms of the land use rights and development.</p>	Strategy C: Extension of the use of ordinances to areas which were not covered and the recognition of the land Use scheme will help in control of development within the municipality.
14	Human Settlement	The department of Human settlement through CRDP is	Bushbuckridge Local Municipality as a rural node, has limited formal housing developments that can cater for low and	Projects to achieve Presidential targets for housing	Strategy A: Address disaster housing backlog fully in 2 year-time

	Priority Issue	Baseline	Problem Statement	Goals	Strategies
		targeting to reduce housing backlog by 2015	middle income earners, with at least 60% of mud houses in the rural areas, 85% of these houses are informal, about 35% of the houses are declared disaster houses. About 50% of the people in the informal housing live in the backyard houses due to growth in the families. The Municipality is currently sitting with about 53 430 applications for government houses.		<p>Strategy B: Upgrading/renovation of unsafe structures (risky houses)</p> <p>Strategy C: Identify land for building middle to high-income housing schemes for accommodation.</p>
15	Education	The Municipality and the department of education have partnered to improve the Matric results as it is the lowest in the district	In 2012 Matric results, Bushbuckridge attained the lowest results in the Mpumalanga Province which remains an area of concern. Moreover, overcrowding, high failure rate that could be attributed to poor infrastructure and facilities. There are other educational facilities which are currently not used for education purposes such as Mapulaneng and Hoxani colleges of Education. Currently there are two community libraries to serve the community of Bushbuckridge municipal area. Lack of FET colleges in the area contributes to the lower levels of education hence educational facilities are used as government department's offices.	<ul style="list-style-type: none"> • Improve or sustain ABET literacy class • Improve school management systems • Projects to achieve Presidential targets for education - 2008 basic primary 	<p>Strategy A: Contribute to the creation effective and efficient learning environment</p> <p>Strategy B: Instill culture of teaching/learning to educators and learners</p> <p>Strategy C: contribute to conduct capacity building for educators</p> <p>Strategy D: Provide vocational guidance to learners</p> <p>Strategy E: Increase utility resources and accessibility of farm schools</p> <p>Strategy F: contribute in the Improvement and sustain ABET classes by 80% in five years time</p>

	Priority Issue	Baseline	Problem Statement	Goals	Strategies
					Strategy G: contribute to Improve schools management in the Municipal Jurisdiction.
16	Community Facilities	Most of the municipal community facilities are dilapidated thus the municipality has budget for maintenance of the in 2014/15 financial year	Community facilities remain a challenge in Bushbuckridge Local municipality since the municipality has only one Thusong Service Centre located in Casteel. The former T.L.C built community hall in remote areas and most of them are dilapidated and are white elephants. There are no community parks for children to play after school. Most of the graveyards are not fenced and some villages do not have graveyards and they bury in their yards.	To provide sufficient, well-maintained and accessible community facilities throughout the municipality.	Strategy A: Provide MPCCs to all communities Strategy B: Upgrade existing community facilities and establish new ones
17	Institutional Capacity/Arrangements	Municipal Organogram is under review and skills audit will be done before placement of and advertisement of vacant posts	Shortage of skilled staff remains a challenge in expediting service delivery in particular within the technical and engineers fields for the smooth implementation of projects. Shortage of work-force in the Municipality is also a problem since the municipality has not yet achieved at-least 80% of the Organogram. Lack of offices and equipments such as machines, trucks, vehicles, etc. hamper the smooth implementation of services.	Projects to achieve Presidential targets for BLM capacitating of employees - 2016	Strategy A: Implement recommended organizational structure of the municipality Strategy B: Formulate and implement proper procurement policy Strategy C: Speed up the transference of delegated functions to the municipality
18	Sports and Recreation	The municipality has budgeted for	The Municipality has a challenge on construction of sports fields or facilities	Projects to achieve Presidential targets for	Strategy A: Develop a comprehensive sport and

	Priority Issue	Baseline	Problem Statement	Goals	Strategies
		projects of sports facilities in the municipal area	for the community. The municipality is concentrating on one type of sporting code which is soccer. There is a need of sports facilities which will cater for all the sporting codes. There is only one stadium which is not completed. This stadium must completed and be upgraded to cater for all sporting codes and the community.	sport & recreation - 2012	recreation policy for the municipality Strategy B: Have secure and well maintained sport and recreation amenities, e.g. stadiums, village level multi-purpose sport complex and community halls Strategy C: Promote performing arts within the municipality Strategy D: Develop visual arts (tourism)

4.6. KEY PERFORMANCE AREAS AND STRATEGIES

The municipal **objectives** and **strategies** should focus on the strategic intent of the municipality in achieving the vision and mission in relation to the identified **priority issues** and **projects respectively**.

Basic services and infrastructure

CHAPTER 5: SUMMARY OF THE KPA'S

5. SPATIAL DEVELOPMENT FRAMEWORK

Bushbuckridge Local Municipality's **Spatial Development Framework (SDF)** is an indicative plan showing the desired patterns of land use, direction of growth, urban edges, special development areas and conservation-worthy areas. The municipal SDF is flexible and able to change thus reflecting the changing priorities of the Bushbuckridge Local Municipality.

The SDF was reviewed and adopted during Council sitting on the 2010/2011 financial year through the assistance of DRD&LR. The SDF has identified core areas comprising of three Municipal Nodes namely, Acornhoek, Thulamahashe and Bushbuckridge CBD. These Nodes are linked via a number of roads/development corridors along, and within which to concentrate development (see attached figure 20 as extracted from SDF)

It is proposed that development be focused within these nodes, so that they become places where services are rendered at a central point to communities. Additionally primary nodes identified for development are Casteel, Shatale/Dwarsloop, Hluvukani, Agincourt, Kildare, Marite and Mkhuhlu. Several transportation hubs have been also identified with three main hubs being located at Acornhoek, Thulamahashe and Bushbuckridge CBD.

It furthermore envisioned that the eastern parts of the municipality should be developed as a tourism belt where Public-Private Partnerships (PPPs) should be encouraged. The Oporn Road to the Kruger National Park should also be developed as part of the tourism belt.

The primary aims and objectives of the SDF can thus be summarized as follows:

- To create a spatially based policy framework whereby change, needs and growth in the Bushbuckridge Local Municipal area are to be managed positively to the benefit of everyone. It should focus on how land should be used within the broader context of protecting the existing values of the Bushbuckridge Local Municipal area i.e. tourism destination, rich historical and cultural area;
- To improve the functioning of the local urban and rural, as well as the natural environmental systems;
- Identification of local opportunities for future urban/ rural development, and natural environmental conservation, and make recommendations as to where and how development of the open space system should be managed;

- To establish strategies and policies to achieve the desired spatial form i.e. movement and linkage systems, open space system, activity system, overall land use pattern etc.

Table 20: Strategic Development Areas (SDAs)

Bushbuckridge Area
<ul style="list-style-type: none"> • SDA1: The triangular area between Bushbuckridge/Maviljan, Dwarsloop and London C which will act to consolidate the urban structure of these three areas. • SDA2 and SDA3: The vacant land parcels to the north and south of the Dwarsloop-Arthur Stone area.
Casteel Area
<ul style="list-style-type: none"> • SDA4: Located in the area to the north-west of Casteel.
Agincourt Area
<ul style="list-style-type: none"> • SDA5: Around Route R40 between Rooiboklaagte, Arthur’s Seat, and Tsakani. • SDA6: To the north of the Acornhoek business node on both sides of the railway line. • SDA7: The vacant land between Moloro and Green Valley. • SDA8: The vacant land between Acornhoek and Okkernooitboom.
Burlington Area
<ul style="list-style-type: none"> • SDA9: Infill development between Burlington and Khokhovela.
Hluvukani Area
<ul style="list-style-type: none"> • SDA10 and SDA11: Infill development in the vacant areas between Clare and Hluvukani (SDA10) and Hluvukani and Tlhavekisa (SDA11).
Thulamahashe Area
<ul style="list-style-type: none"> • SDA12: This infill area is strategically located between the two business areas and adjacent to the south of the link road between the business areas. • SDA13 and SDA14: These two areas pose potential for infill development to the north-west and north-east of SDA12.
Agincourt Area
<ul style="list-style-type: none"> • SDA15: This area represents the vacant land located between Agincourt and Newington.
Kildare Area
<ul style="list-style-type: none"> • SDA16: This area comprises the vacant land between Kildare and Cunningmoore.
Lillydale Area
<ul style="list-style-type: none"> • SDA17: This SDA poses potential for infill development on the vacant land between Lillydale, Justicia, Huntington and Somerset.
Mkhuhlu Area
<ul style="list-style-type: none"> • SDA18: This area already holds a significant number of informal structures and stretches from road R536 in the south up to Oakley in the north.

- **SDA19:** This area is located to the south of Calcutta next to road R536 and also holds a significant number of new informal structures.
- **SDA20:** The area could accommodate future infill development between Oakley and Alexandria A.

Marite Area

- **SDA21:** Located to the east of road R40 this area could act to consolidate/link development between Marite and Mkhuhlu.
- **SDA22:** This represents infill development to the west of route R40 and southwards up to the municipal border.

5.1. Basic Services

Water services

Bushbuckridge Local Municipality has the mandate to provide free basic water service in terms of the National Framework. Water supply to communities remains a challenge. Through the massive program of bulk supply, the municipality aims to improve the lives of the communities and households with provision of multiple sources of water. Linked to water supply problems is poor sanitation, particularly in the densely populated settlements clusters and dispersed small settlements. Through the construction of VIP toilets in households, the Municipality will archive its objective of providing environmentally friendly sanitation services to the people for the promotion of healthy living amongst individuals.

The Municipality is a water service authority which was effective from the 1st March 2006. The actual transfer of assets (infrastructure, staff and finance) took place on the “effective date” in the Transfer Agreement.

Water Service delivery backlog

Bushbuckridge Local municipality has, 134 199 households as per 2011 Census count and 89231 households have access to water. That represents 52 per cent of the households with access to water.

The municipality has completed the Acornhoek bulk as well other major bulks. In terms of the master plans the bulk water is 80% and above completed. In order to provide the community with water in the short term basis while awaiting the completion of the bulk and reticulations the municipality is refurbishing and maintaining boreholes to arrest the backlog. More villages will be reticulated from 2014/15 financial year. Water tankers are used to deliver water to areas with a pressing shortage of water.

The municipality has budgeted R165 800 000 for the 2014/15 financial to fast track the implementation of the projects identified in the municipal IDP document. The budget is also informed by the resolutions of the PCF where all municipalities in Mpumalanga must budget 65% of the budget to water and sanitation.

Table 21: basic service delivery standards and reasons for lack of service

37	Shangaan Hill, Springs	Unreliable water supply	Lack of bulk water supply, reservoirs and boreholes (The projects are budgeted for 2014/2015 financial year)

Water Services Development Plan (WSDP)

The municipality has developed water services development plan which was adopted by council in 2010, this plan will be used to address the back log of water supply in various settlements.

This is a municipality where the potential exists of regional bulk water supply schemes respectively from the Inyaka dam and Sabie River. The water supply systems are very

complex with some short term sub-regional surface water schemes with ground water schemes particularly in the distant rural localities.

Water supply is a dominant problem, especially in rural areas where 61% does not meet RDP standard. More than 60% of the households do not have access to potable water, 16% rely on tap water, while 10.7% rely on boreholes and 3% on natural water (spring and rivers).

Water supply to settlements and townships is still not reliable. On certain days taps are dry in the townships whereas some settlements go through dry taps for days.

Linked to water supply problems is poor sanitation, particularly in the densely populated settlement clusters and dispersed small settlements. Approximately 80% of the households in the municipal area use pit latrines, 84% of the population do not meet RDP sanitation standards. The extensive use of unlined pit latrines poses a potential pollution threat to the surface and ground water resource. (Page 14 of the WSDP)

The purpose of the water services development plan is to articulate a national vision for the water Services sector for the next ten years. It furthermore stipulates the following core goals:

- All people have access to an appropriate, acceptable, safe and affordable basic supply.
- All people are educated in healthy living practices and the wise use of water.
- Water services are provided equitably, affordably, effectively, efficiently, and in a sustainable manner with gender sensitivity.
- All Water Services Authorities are accountable to their citizens, have adequate capacity to make wise choices and able to regulate services provision effectively.
- The price of water services reflects the fact that it is a social and economic good.
- Basic services would be subsidized

Sanitation

The municipality has got four sewage treatment plants, which are operating. These are Mkhuhlu treatment plant, Maviljan treatment plant, Dwarsloop treatment plant and Thulamahashe treatment plant. The municipality has budgeted money to expand the sewage treatment plant to cater settlements which has got water e.g. R293 towns. Other than the R293 towns the municipality is largely rural therefore VIP toilets are being constructed. The Mpumalanga PCF has resolved that VIP toilets must be replaced as they pose a challenge of polluting the underground water therefore new technology of toilets called Enviro-loo toilets are being introduced starting in 2014/15 financial year

Sanitation Service delivery backlog

Bushbuckridge Local municipality has, 134 199 households as per 2011 Census count and 83215 households do not have access to sanitation.

The municipality has a large backlog because of ageing infrastructure where most of the sewerage pipes are asbestos and are being replaced, the other major problem is that treatment plants are operating above design capacity thus the municipality has prioritized upgrading the plants.

The municipality has budgeted R45 000 000 for the 2014/15 financial to fast track the implementation of the projects identified in the municipal IDP document. The budget is also informed by the resolutions of the PCF where all municipalities in Mpumalanga must budget 65% of the budget to water and sanitation.

The following information as supplied by STATISTICS SA will help in providing necessary statistics

Table 23: Sanitation

Indicator	Numbers
• Flush toilet (connected to sewerage system)	4, 852
• Flush toilet (with septic tank)	1, 375
• Dry toilet facility	5, 904
• Pit toilet with ventilation (VIP)	10, 408
• Pit toilet without ventilation	80, 603
• Chemical toilet	193

5.1.1. STATUS OF OPERATIONS AND MAINTENANCE PLAN

The municipality does not have operational maintenance plan, the plan will be developed during the 2014/15 financial year. Money for operational and maintenance has been budgeted under operational budget e.g.R10 million for refurbishment and R 2.5 million for water reticulation and Department of Water Affairs has budgeter R 10 million for refurbishment of schemes.

Electricity

The Bushbuckridge Local Municipality is providing the communities with free basic electricity and alternative source of energy (solar panels & gel). In partnership with ESKOM the Municipality sufficiently provides the community with acceptable standard of electricity, with 90.1% of the households electrified, 0.8% uses paraffin, 7.8% uses candles, and 1.0% solar panels. However, provision of energy in the area need to be upgraded especially in rural areas where interruptions of electricity supply occurs. There is a need to improve the current infrastructure to an acceptable level. Currently ESKOM is upgrading some of the sub-station to accommodate massive reticulation and bulk supply between Ngwarele Sub-station and Hazyview.

Waste Management

Refuse removal

Refuse removal services include weekly house to house refuse collection currently in townships and central business areas of all eleven regions. The services are gradually being rolled out in villages as majority of rural communities do not have access to refuse removal services. Bulk waste management infrastructure requirements, specialized equipment investment needs and growing waste volumes are directly linked to population expansion, infrastructure development and growth in tourism. A permitted landfill site and a system of multipurpose transfer stations will be established as the municipality has no permitted landfill site. The current illegal dump sites have reached full capacity in some areas and do not comply with regulatory requirements. Once a permitted landfill site and associated infrastructure is established, the illegal dumpsites will be rehabilitated and converted into green spaces. Rendering efficient and effective refuse removal services is still a challenge for the municipality. The total numbers of houses with access to refuse removal are 11794, without access to refuse removal are 112802 and total number of households are 124596.

Table 25: Waste removal

Description	Census 2011	Census 2001
Removal at least one a week	5,172	6,360
Removed less often	436	388
Communal refuse dump	487	509
Own refuse dump	108,601	82,357
No rubbish disposal	9,847	17,934
Other	51	0
Total	124,594	107,548

Source: STATS SA Census 2001 and 2011

Recycling

Recycling initiatives are mainly informal and plans are in place to formalize recycling initiatives by establishing a recycling centre. The intervention will assist the municipality in improving landfill space-saving targets for the proposed permitted landfill site and

will reduce the burden on the current illegal dumpsites which are to be decommissioned and rehabilitated. Separation at source pilot projects will be conducted throughout the municipality to support the recycling facilities and meet waste minimization targets.

Street cleaning

It is mainly confined to the central business areas of all the eleven regions. Street bins and no littering signage have recently been installed to reduce the levels of littering. In addition refuse skips have been placed at strategic places in central business area to minimize littering by street hawkers. Additional equipment will be provided to all regions to support the function.

Illegal dumping

Illegal dumping is an ongoing issue and open spaces are often abused as dumping sites, compounding challenges for regions. Clean-up campaigns are conducted in all regions to promote community environmental education and awareness campaigns in order to reduce illegal dumping. Although there is a bylaw in place that provides for the issuing of spot fines, law enforcement still remains a challenge.

Cemeteries

The municipality envisages constructing municipal owned cemeteries in the rural areas to ensure protection of the cemeteries. Majority of rural communities prefer to bury their loved ones in their own yards, which do not take into consideration the effects to hydrological impact. The Municipality is committed to provide necessary infrastructure to already existing and newly identified cemeteries

Safety and Security

The municipality is committed to a free crime environment that seeks to protect the abuse of vulnerable children and women. The Municipality envisages achieving such through the provided facilities in the form of four (4) main police stations, which are strategically located in Thulamahashe, Maviljan, Mkhuhlu, and Acornhoek. Six (6) satellites offices located in Marite, Shatale, Dwarsloop, Lillydale, Casteel and Hluvukani with magistrate courts where main police stations are located. To complement the facilities, each demarcated ward has Community Policing Forums (CPF) that are active.

Through the involvement of the Bushbuckridge Traffic Police, the Municipality plays an important role in the reduction of road fatalities and accidents. The visibility of Safety Officers in the roads and streets of Bushbuckridge has contributed to the awareness programs in educating road users for road safety.

Environmental Management

Bushbuckridge Local Municipality recognizes the contribution and significant role played by the natural environment in provision of sustainable services to its constituents. The Municipality forms part of the Kruger to Canyon Biosphere thus it is imperative to protect and enhance the value of the natural environment and green spaces for social,

economic and environmental reasons. It is critical that the municipality's natural resources and green spaces are defined, protected, enhanced and made accessible.

The starting point for the Department's mandate is Section 24 of the Constitution which states that everyone has the right to have the environment protected, for the benefit of present and future generations, through reasonable legislation and other measures. Given that environmental responsibility and accountability is not confined to one sector, some of the greatest challenges have been overall co-ordination, conflicting mandates and taking accountability by some stakeholders.

The biggest threat to natural resources is rural sprawl and illegal sand mining which threaten mainly sensitive environments such as rivers, wetlands, ridges and rare vegetation. Due to changing environmental conditions, adaptation and resilience is not a matter of choice but a corporate and individual imperative.

Telecommunications Infrastructure

A large section of the municipal area is provided with formal telecommunications facilities, 70% uses Cell phones, 20% uses fixed lines with 10% rely on public phones. Telecommunications is well provided in big institutions such as hospitals, schools and government departments.

Housing/ Human Settlement

The Bushbuckridge Local Municipality as a declared nodal point, has in terms of the adopted housing chapter, prioritized housing for the communities in the municipal area who mostly still living in the traditional mud houses and unstructured houses. The municipality is committed to building safer and quality houses that meets the basic government requirements. The traditional houses are associated with natural disaster and health problems. Refer to the attached Housing Chapter for more details.

5.1.2. Roads and Transport

The Bushbuckridge Local Municipality aligns with the Ehlanzeni District Transport Plan as per the integrated plan. The Municipality envisages improving the road links network to enable access to service points. The road links network currently do not enable viable mobility for economic activities to be performed in the nodal area and as a result, the Municipality has planned a construction of a multi-modal taxi rank facilities through the intervention of National Treasury (NDPG).

Roads infrastructure

Bushbuckridge Local Municipality's roads are characterized by poor gravel roads with unclearly defined road network links due to conditions of the roads. The entire roads infrastructure has limited storm water drainages and poor maintenance strategy and results, some tarred roads are been destroyed by rains. There is also limited access to bridges to provide sufficient linkage on communities for economic engagements. The R40 road is the only provincial road which is well maintained by the Department of Roads and Transport; other provincial roads are not well maintained. The municipality has budgeted money to improve the measure economic road and roads leading to social facilities (clinics and schools). The municipality has budgeted R119 700 000 for the 2014/15 financial year.

Table 26: Road infrastructure

Total km	Tarred km	Gravel km
4650	938	3712

The municipality has budgeted R119 700 000 for the 2014/15 financial year.

Transport

The community of Bushbuckridge Local Municipality depend on buses and taxis as mode of transport. In rural areas only buses are the only mode of transport, transporting people to work, school and shopping complexes for shopping. There is a problem with overloading because the transport is not enough for the communities. Most of the taxis in rural areas are not road worthy and this is a result of poor road infrastructure. Trains are used to transport goods and the locals use it during holidays only.

5.2. Disaster Management

Disaster management Act of 2002 which is a constitutional regulatory framework for disaster management in South Africa was integrated in the white paper on disaster management. The Act 57 of 2002 clearly addresses the working relationship of provincial government together with local government, through the national disaster management center.

The Bushbuckridge local municipality has ensured that disaster is managed through the implementation of its disaster management strategic plan, as stipulated by the Act, national framework and provincial framework in the context of the capacity realities and availability funding. This should be executed through regular monitoring, evaluation and updating of disaster management plan in the municipality as well as regular reporting.

The Municipality has developed the disaster management plan which was adopted by the municipal Council sitting of the April 2008. The plan assists the municipality on how to deal with disaster.

5.3. Local Economic Development

The Bushbuckridge Local Municipality has a potential for developing the local economic hub through our indigenous wealth in the form of agricultural farming and tourism. Agriculture and tourism can make a meaningful contribution to the local, district and the provincial Gross Domestic Product (GDP) and will have a great potential of creating economic growth and reduce the levels of unemployment.

Tourism

Tourism, as already cited above, has a great potential of stimulation of economic growth, taking into account its close proximity to the Kruger National Park (KNP), Manyeleti and various renowned private nature reserves such as Mhala-Mhala, Sabie-Sabie, Phungwe and others located along the boundary of the KNP. The municipal area also falls within the Kruger to Canyon Biosphere, which stretches northwards via Hoedspruit to Tzaneen. According to the Tourism Growth and Development Strategy that was conducted by the Department of Finance and Economic Development, tourism in the area has a competitive advantage and has a potential to contribute significantly towards accelerating growth in the tourism industry.

Agriculture

Agriculture remains the potential economic development platform for the communities of Bushbuckridge through subsistence and animal farming. The Municipality intends to strengthen the existing programs that are aimed at improving the local economic development. Agriculture in the municipal area has a strong competitive advantage in terms of the climate, bio-diversity and number of dams. But this advantage is impacted by problems associated with it such as droughts, bush fires, and rural/bad farming practices. Although commercial agriculture provides bulk of the employment opportunities, approximately half of the population, particularly the youth, is unemployed. The constraints and issues related to agriculture in the municipal area are:

- ❖ Access to viable parcels of arable land;
- ❖ Management of communal grazing land; and
- ❖ Conversion from subsistence to commercial agriculture.

Comprehensive Rural Development (CRDP)

Bushbuckridge Local Municipality has been identified as one of the Municipality to implement rural Development by the President. The Department of Agriculture and Land Reform has been task with the responsibilities of implementing the program. The following wards has been identify as under developed with huge backlog on service delivery ward 30, 33, 34, & 36. Community participation was conducted and the Communities were trained on how to Develop Community based Planning. Projects

were identified and Sector Department are busy implementing various projects on the wards mentioned above. All projects have been captured in the I.D.P.

In support of the ISRDS, national government has initiated the Comprehensive Rural Development Programme (CRDP) (2009). It differs slightly from previous government strategies in that it is based on a proactive participatory community-based planning approach rather than an interventionist approach to rural development.

Essentially, the CRDP is aimed at being an effective response to poverty alleviation and food insecurity by maximizing the use and management of natural resources to create vibrant, equitable and sustainable rural communities. The strategic objective of the CRDP is therefore to facilitate integrated development and social cohesion through participatory approaches in partnership with all sectors of society.

The ultimate vision of the CRDP to “create vibrant, equitable and sustainable rural communities is to be achieved through a three-pronged strategy (see **Figure 5**) based on:

- A coordinated and integrated broad-based agrarian transformation;
- Strategically increasing rural development; and
- An improved land reform programme.

The **objectives** of each of the three strategic thrusts constituting the CRDP’s strategy thought applicable to the formulation of a SDF for the District include:

5.3.1.1. Agrarian Transformation

- Facilitating the establishment of rural and agro-industries, cooperatives, cultural initiatives and vibrant local markets.
- Increased production and sustainable use of natural resources by promoting farming and related value chain development (exploring all possible species for food and economic activity).

5.3.1.2. Rural Development

- Access to community and social infrastructure, especially well-resourced clinics.
- Focusing on the development of new and the rehabilitation of existing infrastructure.
- Improving and developing infrastructure conducive to economic development – e.g. distribution and transportation infrastructure, agricultural infrastructure, water and electricity infrastructure, market and storage infrastructure, retail infrastructure, and telecommunications infrastructure.

- Improving and developing infrastructure conducive to social development – e.g. sanitation infrastructure, health infrastructure, sports and recreation infrastructure, and educational infrastructure (especially ABET centers).

5.3.1.3. Land Reform

- Promoting restitution, tenure reform, and redistribution in a sustainable manner.
- Increased access to land by previously disadvantaged people.
- Establishing Agri-villages for local economic development on farms.
- Up-to-date information pertaining to land claims.
- Providing reliable and efficient property (deeds) registration systems.
- Contributing to economic growth and housing development by providing government and private agents with essential land information in order to engage in planning as well as economic transactions.
- Providing spatial planning information and services to local municipalities and other public or private institutions that may require these services for development purposes.

5.4. COMMUNITY WORKS PROGRAMME (CWP)

The CWP started in Bushbuckridge, one of South Africa's identified poverty nodes in July 2009 and build up to 2230 participants by January 2013. The work selected was done through a Participatory Rural Appraisal (PRA) village needs assessment in all 22 subsites/villages from 17 wards. The programme seeks to address social and economic upliftment of distressed communities which lead into improved service delivery to those communities. The work done is divided into 4 subsections: health, education, construction and agriculture. Onsite and external training is sourced for participants and all tools and materials are purchased. PPE is also provided. The programme inception was guided by a steering committee which is chaired by the ward councilor and comprises of the ward committee and other relevant parties. The programme works closely with the municipality and had been incorporated in the LED strategy. Through the establishment of a Local Reference Committee with representatives from the Local Municipality and relevant line departments, the CWP hopes to strengthen its projects and continue to develop participant capacity.

5.5. INSTITUTIONAL TRANSFORMATION

Organisational structure, Staff Component and Appointments

The municipality has 1038 posts filled with 58 vacant as per 2013/14 approved organizational structure with council **resolution number: BLM/71/20/03/14/2013/214**. There are five section 57 posts with 3 vacant which are the directors for corporate services and community services. There are a number of critical posts that were picked by the AG that must be filled as they are vacant, 50 % of the indicated have been filled.

Staff Component and Appointments needs the implementation of the Employment Equity Plan, which was adopted by Council by June 2006 and it was reviewed by the municipal Council in December 2009. The main challenge is the effective implementation of the EEP at management level whereby five female unit managers have been appointed against sixteen male unit managers.

Training and Skills Development

For good governance, development of skills and professional service delivery, the municipality develops a workplace plan on a yearly basis and implement and report on it. There are 48 officials being capacitated on MFMA which is facilitated by the University of North West and 20 officials that are being trained on an Assessor and Coaching programme which are running until June 2014 as per WSP. There are 4 finance interns appointed as per National Treasury regulations.

The municipality has various learnership programmes that were awarded to the youth and women as per WSP. There were 45 youth that were trained on NQF level 3 on maintenance and repair plumbing systems, 30 youth on NQF level 04 sanitation water health and facilitation and 50 women on NQF level 04 on Youth development.

Transversal Affairs

Youth Development – the Municipality has considered the youth category as the cornerstone for development, given that this category accounts for the majority of the population in the municipal area. To ensure the transformation process in this category, the municipality further established a youth unit which is responsible for the co-ordination of the Bushbuckridge Youth Council.

Disability affairs – in line with the Employment Equity Plan adopted by Council, Bushbuckridge Local Municipality has also established disability affairs that is co-ordinating and championing the interests of people living with disabilities, and ensure fairness in the recruitment strategies as a matter of policy. Disability affairs is responsible for Bushbuckridge Disability Forum

Gender: Women and Men

The municipality has adopted an Employment Equity plan to address the issue equality as most posts are occupied males. The municipality also has a transversal unit which deals which issues of gender in the communities as to empower women drinking who are regarded as the previously disadvantaged. Currently the municipality is in the process of developing a sectoral plan that deals with gender.

Audit Committee

BLM has an established Audit Committee which is appointed by Council and chaired by Mr R Mnisi to ensure that the Municipality complies with Section 166 of the Municipal Finance Management Act No. 56 of 2003 by having an Audit Committee as an independent advisory body must advise the municipal council, the political office bearers, the accounting officer and the management staff of the municipality on matters relating to:–

- internal financial control and internal audits;
- risk management;
- accounting policies;
- the adequacy, reliability and accuracy of financial reporting and information;
- performance management;
- Effective governance;
- compliance to legislation;
- performance evaluation; and
- Any other issues referred to it by the municipality.

Anti- Fraud and Corruption Policy

The anti-Fraud and corruption Policy is intended to reinforce existing systems, policies, procedures, rules and regulations of BLM by preventing, detecting and reducing the impact of fraud and corruption. The Municipality fosters a zero tolerance to fraud and corruption anti-Fraud and Prevention strategy was approved and adopted by Council during November 2009 Council sitting. Anti-Corruption line was also established to allow members of the public to report on the fraudulent and corrupt activities that includes the misuse of Municipal Vehicles. Anti-Corruption line is managed and controlled by an independent body who takes report on behalf of the municipality.

5.5.1. Communication, Marketing and Events Co-ordination

The Communication, Marketing & Events unit is primarily responsible for the communication between the municipality and the communities within the municipality, through the media (electronic and print) and Community Outreach Programs. The unit works in synergy with the district and other local municipalities within the district (Mbombela, Nkomazi, Umjindi, and Thaba Chweu) and the provincial departments. This is done on a daily basis whenever the need arises and also monthly, through the District

Communicator's Forum. This allows all communicator's to ensure that they communicate one message in service delivery.

The objectives set out by the unit and also indicated on the Communications Strategy as follows:

- To ensure participation and support to Integrated Development Plan (IDP);
- To improve communication mediums internally and externally (website, quarterly newsletter, monthly newsletter, newspapers and radio);
- To conduct constant monitoring of communications, marketing and events management;
- To support and participate in the Municipal's programs and activities.
- To implement the Communication Strategy;
- To create platforms for greater public participation through consultative processes and by sharing information with communities;
- To enhance Intergovernmental Relations through the coordination of communication activities, programmes and projects among the three spheres of government;
- To strengthen and sustain media relations and to communicate proactively with the media;
- To brand BLM at events and activities organized by both the Municipality and the District municipality.

Communication tools to communicate internally and externally:

- Quarterly newsletter (will also include local municipalities and other government departments)
- Internal newsletter
- Radio interviews, advertising and talk shows
- Website.

Oversight Committee

Municipal Public Account Committee (MPAC) was established in terms of Section 79 of the Local Government Municipal Structures Act, 1998 to serve as an oversight over the executive obligations of the Council. The committee was established on the 28th June 2011 as per the Council resolution number: BLM/133/28/06/2010/11 and consists of 12 members.

The committee was inducted with the rest of the members throughout Mpumalanga province. It consists of 12 members, which is chaired by Clr R D Makhubela who will be a full time Councilor from the 1st July 2012 as per the latter Council resolution. Currently the committee managed to meet with the Auditor General (AG) to assist with the interpretation of its report coupled with management letter. Questions from the AG's report have been prepared for the executive to give response. The committee meets

regularly before each council sitting so that they prepare report that will be tabled to the council.

Council committees

The Municipality has nine council committees which are chaired by members of the Mayoral committee. Five of the committees deal with administration and the other four are for the political wing of the municipality. The committees were established on the 28th June 2011 with the Council resolution number: **BLM/134/28/06/2010/11**. The committees seat regularly before the sitting of each council meeting. Reports are interrogated in the committees before the can be table to the Mayoral Committee and the Municipal Council. The committees are as follows:

<p style="text-align: center;">SOCIAL DEVELOPMENT</p> <p>MMC: CLR FLOMINA TIMBA CHAIRPERSON: SONNYBOY RAHLANE MEMBERS</p> <ol style="list-style-type: none"> 1. Mabunda Lydia 2. Malele Lawrence 3. 5.5.2. Audit committee

The committee has been established and is fully functional with 3 members who are: Mr. R Mnisi (Chairperson), Ms. T Ranape (Member) and Ms. N Mthembu (member).

Internal Audit Function

The municipality has developed an Internal Audit charter which embodies the spirit of the contract binding The Internal Audit Activity has the responsibility to:

Provide services to the Municipality in accordance with:

- The provisions of the Skills Development Act and all other relevant legislation;
 - requirements in this Charter relating to internal audit;
 - all principles prescribed by the Institute of Internal Auditors (IIA);
 - the terms and conditions of Service;
 - the Municipal Finance Management Act; and
 - the Municipality’s Code of Conduct.
- ❖ Develop and document an Internal Audit Charter and mission statement, which conforms to the requirements and standards of the Institute of Internal Auditors (IIA).
 - ❖ Facilitate an initial risk assessment in conjunction with management and update the assessment annually
 - ❖ Develop a flexible three year strategic and one year audit plan using an appropriate risk-based methodology, including any risks or control concerns identified by management and submit that plan to the Audit Committee for review and approval as well as periodic updates.
 - ❖ Implement the annual audit plan, as approved, including as appropriate any special tasks or projects requested by Management and the Audit Committee.

- ❖ Maintain a professional audit staff with sufficient knowledge, skills, experience, and professional certifications to meet the requirements of this Charter.
- ❖ Evaluate and assess significant merging/consolidating functions and new or changing services, processes, operations, and control processes coincident with their development, implementation and/or expansion.
- ❖ Issue quarterly reports to the Audit Committee and Management summarizing results of audit activities.
- ❖ Keep the Audit Committee informed of emerging trends and successful practices in internal auditing.
- ❖ Provide a list of significant measurement goals and results to the Audit Committee.
- ❖ Assist in the investigation of significant suspected fraudulent activities within the Municipality and notify Management and the Audit Committee of the results.
- ❖ Consider the scope of work of the external auditors and regulators, as appropriate, for the purpose of providing optimal audit coverage to the organization at a reasonable overall cost. It is accepted that both external and internal auditors must remain independent and that no limitation may be placed on the scope of their work.
- ❖ Establish a quality assurance program by which the Director Internal Audit assures the operations of internal auditing activities.
- ❖ Provide special services as and when required by the Audit Committee.
- ❖ Internal audit is responsible for conducting their work in accordance with the Standards for the Professional Practice of Internal Audit established by the Institute of Internal Auditors (IIA).
- ❖ Internal audit must assist the Municipal Manager in achieving the objectives of the Municipality by evaluating and developing recommendations for the enhancement or improvement of process through which:
 - Objectives and values are established and communicated;
 - the accomplishment of objectives is monitored;
 - accountability is ensured; and
 - Corporate values are preserved.

The controls subject to evaluation should encompass the following:

- The information system environment.
- The reliability and integrity of financial and operational information.
- The effectiveness of operations.
- Safeguarding of assets.
- Compliance with laws, regulations and controls.

Quality assurance:

In order to ensure that the quality of the internal audit is maintained at a high standard, the Internal Audit Activity will develop and maintain comprehensive measurement goals and will monitor performance against these goals and report on these results to the Audit Committee on an annual basis.

Compliance to the quality improvement program will be emphasized on all audits performed.

Continuous Professional Development:

In ensuring that the assurance and consulting services provided to the Municipality are maintained at a high standard, the Internal Audit Activity will develop a Continuous Development Programme to be adopted by the Audit Committee for implementation.

Labour Forum

The municipality has a Labour forum

Ward Committees

Ward committees were established in terms of section 72 of the Municipal Structures Act of 1998, to assist with the Ward councilors to carry out their duties to the community. Bushbuckridge Local municipality established the ward committees between the period of July to September 2011 after the Municipal council resolved to deploy Councilors to lead the establishment of the committees.

All the 37 wards have established their ward committee structures. The municipality together with the department of Cooperative Governance and Traditional Affairs (**COGTA**) provided an induction workshop over two days to all ward committee members. Further training was provided to secretaries of the ward committees. The municipality has recently started with the payment of out of pocket expenses to all ward committee members as gazzetted by government.

Supply Chain Committees

The supply chain committees were established according to the Supply Chain regulation of 2005 which states that all municipalities must establish supply chain committees to deal with procurement process of the supply chain units. The municipality has established 3 committees: Specifications committee, Evaluation committee and the Adjudication committee. The members that sit in the committees are selected by the Municipal Manager and are requested to sign a memorandum of agreement which binds them for a specified period which normally a period of six months.

Complaints Management Systems

The Office of the Executive mayor and Speaker conducts Izimbizos where the community is given the platform to raise their complaints and frustrations in terms of service delivery matters. During the IDP public consultation meetings which are held as per requirement of the Municipal systems Act, the community also gets a platform to raise their concerns. There are other ways where the community members are given an opportunity: Suggestions boxes at all municipal offices, LED forum, awareness campaigns, Community Radio airplay slot, etc.

Fraud Prevention Plan

The municipality has an Anti-corruption policy which deals with corrupt activities in the municipality. There is also a toll free line where the community can call and register any fraud activities that they see or suspect that concern the municipality. The toll free line has been active since 2009. The Municipality also has a code of conduct which every employee is expected to sign and adhere to.

Organisational Infrastructure/Assets

Lack of office space militates against efficient management of organisational assets. The extension of the new municipal complex will arrest this inefficiency.

Service Delivery Standards (Bath- Pele Principles)

Bushbuckridge municipality, with all its service delivery challenges, is obliged to develop a Service Delivery Charter and a Service Delivery Improvement Plan to ensure efficiency and good governance. Adherence to Batho-Pele principle is possible if service delivery policies are developed and implemented.

BLM Service standards

We undertake to provide services of high quality; in this regard we aim to:

- Ensure that all municipal employees wear their name tags
- Ensure that all municipal officials be formally dressed and be presentable
- Ensure that complaints raised by the public shall be treated as confidential
- Attend to all queries within 10 working days
- Answer the telephone calls within 5 rings
- Process applications within 30 days
- Deal with written requests within 21 days
- Pay our creditors within 30 days

5.8. FINANCIAL VIABILITY

Financial viability and management

The Municipality has for some-time now, adhered to the regulatory requirements in terms of the MFMA to ensure that it maintains effective, efficient and transparent systems of financial and risk management and internal control. However, Financial Viability remains a challenge as the municipality has not, to thus far manage to implement the revenue enhancement strategies.

The Municipality further prepares its financial statements on the entity-specific basis of accounting, as set out in accounting policy note 1. Bushbuckridge Local Municipality submits its Financial Statements to the Auditor General in line with **Section 126 of the MFMA** for auditing and compliance purposes. There is a need to develop effective billing and debt collection mechanisms and income generating strategies.

Assets Register

The Municipality has developed a comprehensive assets register for both fixed and movable assets to be considered by Council during Council sitting to be held on the 07 APRIL 2011. This is an attempt to adhere to regulatory framework after the Auditor General's report for the **2008/2009** financial year having raised the matter as a going concern for the municipality.

Tariff Policy

The Municipality has developed a Tariff Policy in line with the provisions of Section 74 of MSA no. 32 of 2000. The Policy is aimed at promoting uniformity and fairness to the communities and shall as far as possible attempt to recover expenses associated with the rendering of basic services to the communities

CHAPTER 6: ORGANISATIONAL PMS

6. Performance Management System

6.1. PMS

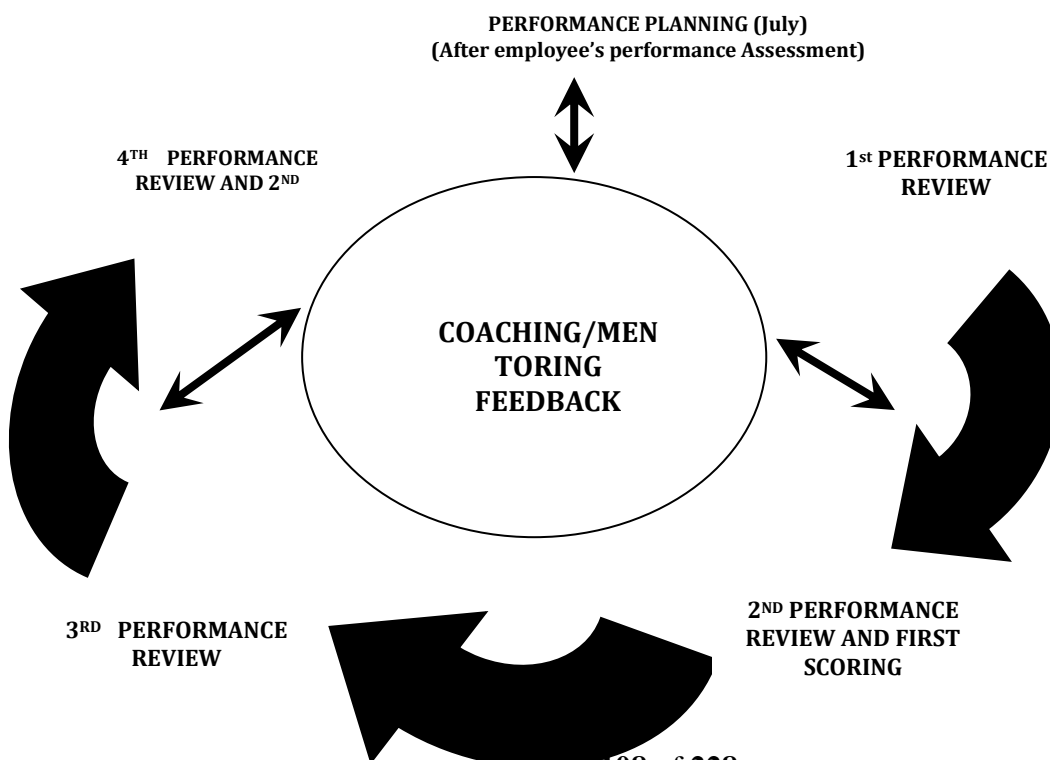

A Performance Management system framework/policy was adopted by June 2013 and review during the Council sitting that was held on the **22 August 2013 (Council resolution no. BLM/02/22/08/13/2013/14)**. This is a milestone towards adequate service delivery with a purpose of providing a system that each employee's individual performance can be measured against the performance of the institution. It is therefore designed to ensure that the Municipality delivers on its mandate as per the municipal Integrated Development Plan (IDP). Currently it is under review and will be adopted by the municipal council before new financial year.

The system is also driven by the following principles:

- Productivity.
- Co-operation.
- Consistency.
- Objectivity.
- Self-enhancement.
- Recognition.
- Development.

Progress review, feedback sessions as well as annual evaluation session take place on the following dates every year. This is in line with the requirements of the MSA of 2000.

Performance Management Cycle

A formal review session is scheduled about half-way through the performance cycle. This session is handled the same way as an Assessment interview. The objective of this review is to update the Performance Plan and adjust any performance expectations that may not be attainable due to external factors beyond the control of the manager or the employee.

6.2. Service Delivery Budget Implementation Plan (SDBIP)

The SDBIP is developed within 14 days of the adoption of the municipal Budget and IDP and signed by the executive Mayor within 28 days. It is mandated to reflect the implementation on the IDP on a yearly basis. The SDBIP is designed to reflect the quarterly projections as a way of monitoring the progress of the implementation of the IDP throughout the year.

6.3. Role players and stakeholders of PMS framework

6.5. Municipal Annual Report

Quarterly reports are used to monitor the performance though out the year and they are in line with legislation. In accordance with Section 46 of the Municipal Systems Act, the Municipality prepares for each financial year, an Annual Report aimed at reflecting on the performance of the municipality against its strategic plan which is the IDP as also supported by Municipal Finance Management Act, section 88.

The municipality has adopted its Performance report during Council sitting that was held on the **24 January 2014**.

6.6. COMMENTS ON THE 2013/14 IDP DOCUMENT

2013/14 (MECs Comments)

The Department of Co-operative Governance and Traditional Affairs conducted its I.D.P. analysis on the June 2012, and the following gaps were identified as areas of

improvement by the Municipality. These gaps were prioritized during the development of the 2014/15 I.D.P.

Gaps	Intervention
Workplace skills plan should be reviewed to address scarce skills since the municipality is confronted with difficulties in acquiring skilled personnel.	The Workplace skills plan is under review
Planned projects in the IDP must be identified per ward in order to enhance ward base planning and effective community feedback.	All IDP projects are identified per ward
Develop performance targets for each year for 5 year IDP cycle with performance indicators	IDP has been developed per five year cycle with performance targets and indicators
Development of the water, sanitation, electricity and roads and storm water master plans, Integrated Transport Plan, Financial plan, comprehensive infrastructure plan, disaster management plan, review WSDP and finalization of the Local Economic Development strategy and integrated waste management plan	Reports have been tabled to council to have budget for the sectoral plans
The municipality is advised to develop a complaint management system encompassing mechanism and procedures for placing and addressing complaints and feedback to communities and	Complaint management system has been developed in 2009 but is not functional. It will be resuscitated in 2014/15 financial year.
It is recommended that the municipality take into consideration the issues raised by the auditor general when reviewing the IDP.	The issues have been incorporated in the IDP. While an action plan was tabled to council on how to remedy the identified issues.bbb

6.7. Auditor General's Report

In the opinion of the Auditor General, the Municipality received unqualified report for the **2008/2009, 2009/2010 2010/11 and 2011/12** financial years respectively. In the **2012/13** financial year the municipality has received a Disclaimer audit report. The report has found gaps on the following: Restatement of corresponding figures, material impairments, unauthorised expenditure, irregular expenditure, etc.

Findings	Action plan
Inconsistency between the IDP and SDBIP	The cross casting of objectives, indicator and targets between the IDP and SDBIP were re-performed and corrected.
No evidence of the approval of tender specifications	All bids go through the BSC before advertising and are the minutes are duly approved.
Creditors and Retention policy not in place.	Policy to be developed before the end of 2013/14 financial year
Advertise and fill all key vacant positions	All key vacant posts were advertised by the municipality and interviews have been conducted. Appointments of all outstanding directors to be done before end of 2013/14 financial year.
Unauthorised expenditure	Quarterly reports are being generated and discussed with senior management during quarterly SDBIP preparations to ensure that expenditure are kept within relevant limits

CHAPTER 7: FINANCIAL PLAN

In terms of the Section 26 (h) of Municipal Systems Act, 32 of 2000, municipalities must ensure that a financial plan which must include a budget projection for at least the next three financial years. This plan must be in line with the Municipal Finance Management Act, 56 of 2003 and treasury regulations in terms of policies and guidelines and procedures to be followed. Bushbuckridge Local Municipality has developed its Financial Plan in 2013 which amongst other things include the following:

- Policy guidelines,
- Revenue enhancement strategies ,
- Financial risk and metrics,
- Cost recovery strategies and access to capital

The plan further identifies challenges facing municipalities with respect to financial planning and complying with all the acceptable and applicable standards e.g. GRAP 17. The municipality further identifies strategic long range solutions which will ensure that municipal performance improves accountability and the adequate usage of tax payer's money. This is for the third time and surely indicates the increased proper financial governance and application of internal risks control measures. The plan also allude in brief the SCM and how it can be customized such that it benefits local people that are emerging SMMEs and Cooperatives. There is a strong link with LED initiatives as the finance department keeps records of jobs created and the companies appointed for execution.
