Chapter 4 of the Municipal Finance Management Act, No. 56 of 2003, states that the approval of the budget is the responsibility of the council. This does not mean the approval of every line item but rather the approval of the budget which will give effect to the planned strategic priorities of the municipality (IDP, SDBIP). The process, format and other compliance requirements are regulated by the Municipal Finance Management Act no. 56 of 2003 (MFMA) in the Municipal Budget and Reporting Regulations no. 32141 and in National Treasury circular 51 as guide.

4. DELEGATIONS ON VIREMENTS ON – CAPITAL BUDGET

A Capital budget is approved per line items or per project. This in effect means that council does not allow any discretion to an official other than delivering on the decision taken. Any savings or shortfall must be reported to council for it to decide on the future utilization of the savings as well as to seek additional funds for the execution of a project in the case of a shortfall in the budgeted amount to complete the project.

Capital Budget Virement

- a. Transfers to capital items can only be possible if the transfer from is a capital item as well.
- b. Transfers will only be possible if the capital project is an approved project in the capital budget and IDP.
- c. It should also be noted that only the CFO can approve transfers of items between two different funding source (eg. Transfer between “Own funds” and “Ad-hoc” is not possible)
